Controlled monotonic null — realization 0
Same parent/noise, nested subsets; ordering probabilities are NOT calibrated significance
N=5: saved P=0.999963, lnP=-3.6911e-05
N=10: saved P=0.725188, lnP=-0.32132
N=20: saved P=5.32331e-05, lnP=-9.8408
N=40: saved P=3.34988e-15, lnP=-33.33
g_obs [m/s²]
g_bar,ref [m/s²]
10^{-10}
10^{-11}
Strictly monotonic latent RAR
Noisy central values (connected for display)
Pointwise 68.27% squared-Gaussian intervals
x: synthetic nuisance-reference coordinate; saved P is GH-marginalized (shared component shapes preserve ranking).
