log-linear 2D profile diagnostics, page 1/33 — 130/175 profiles; 338,130 included cells; 45 profiles deferred; accuracy unverified

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

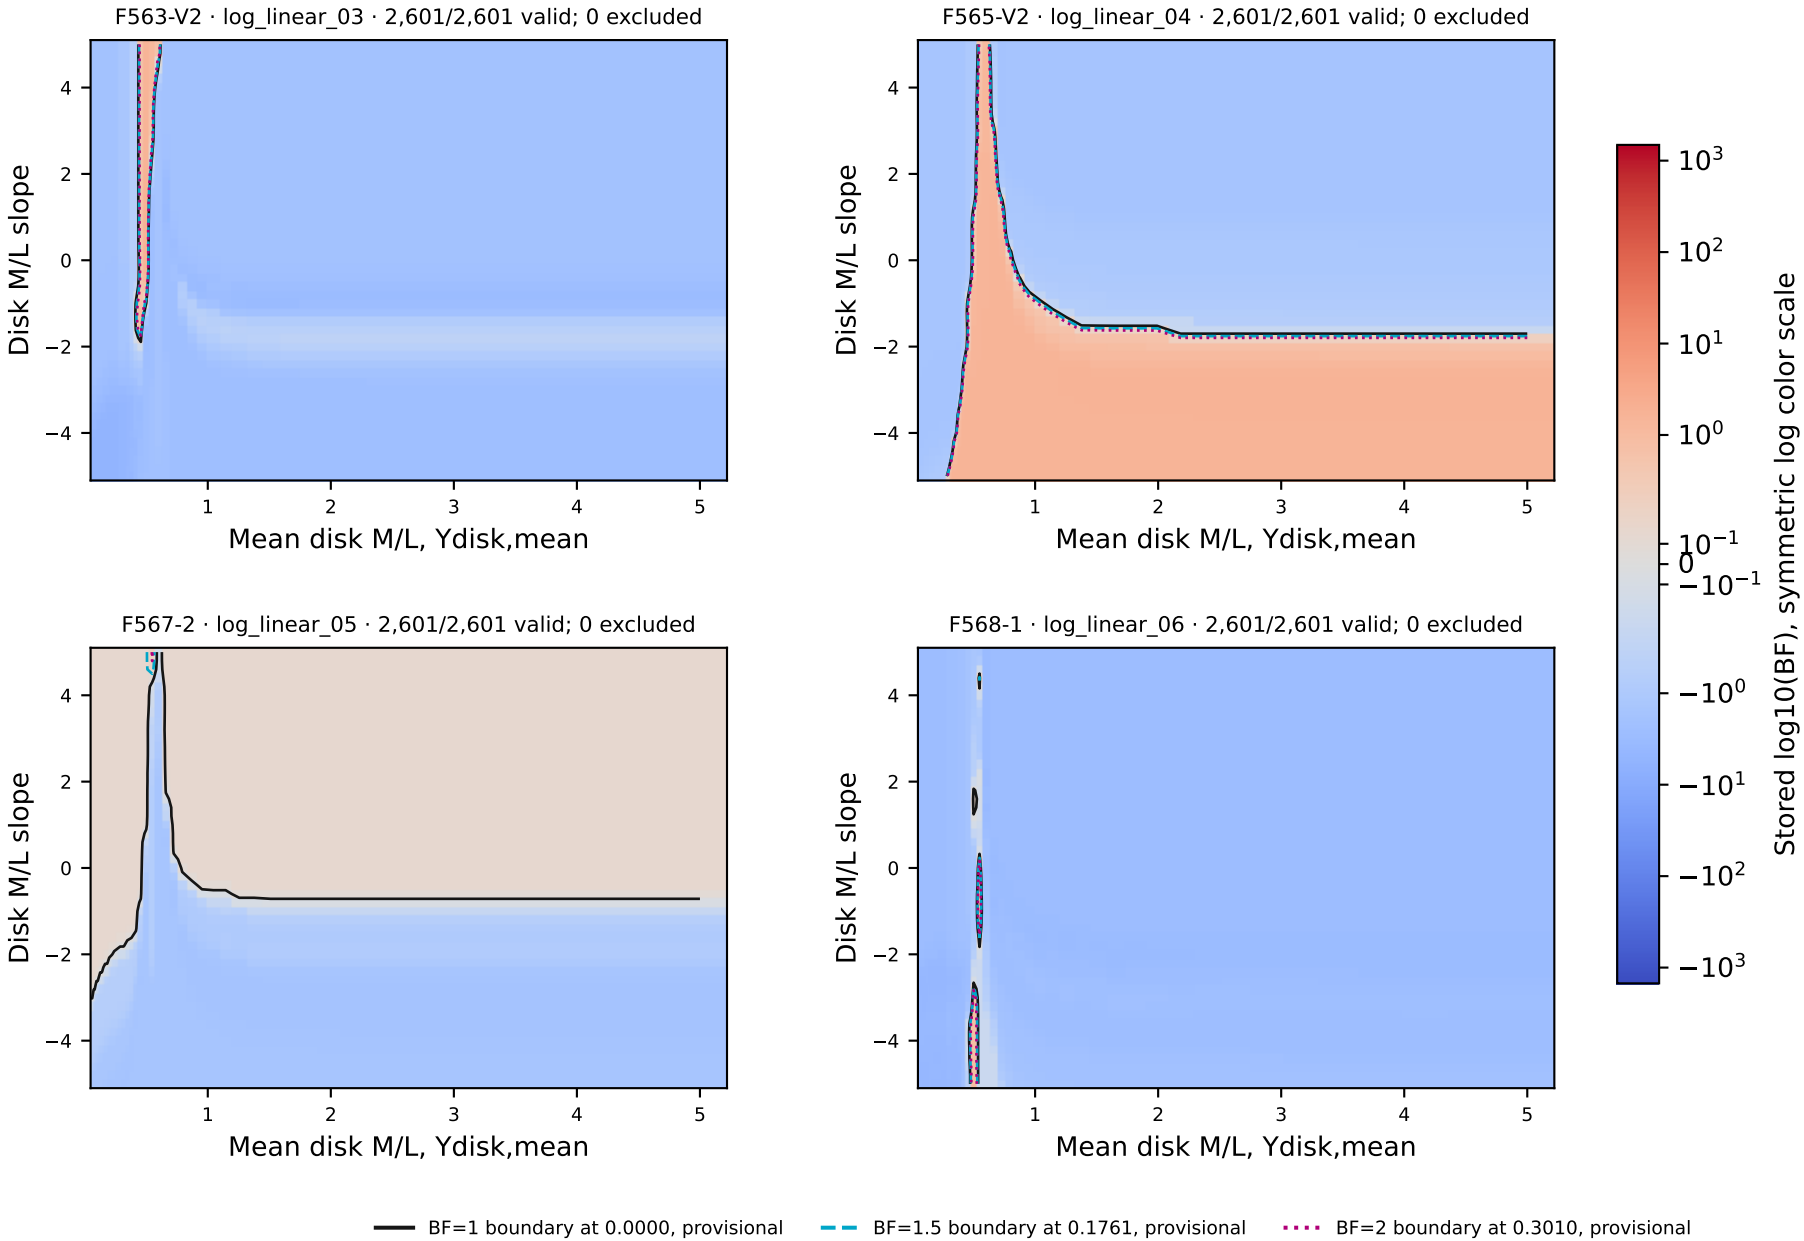

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

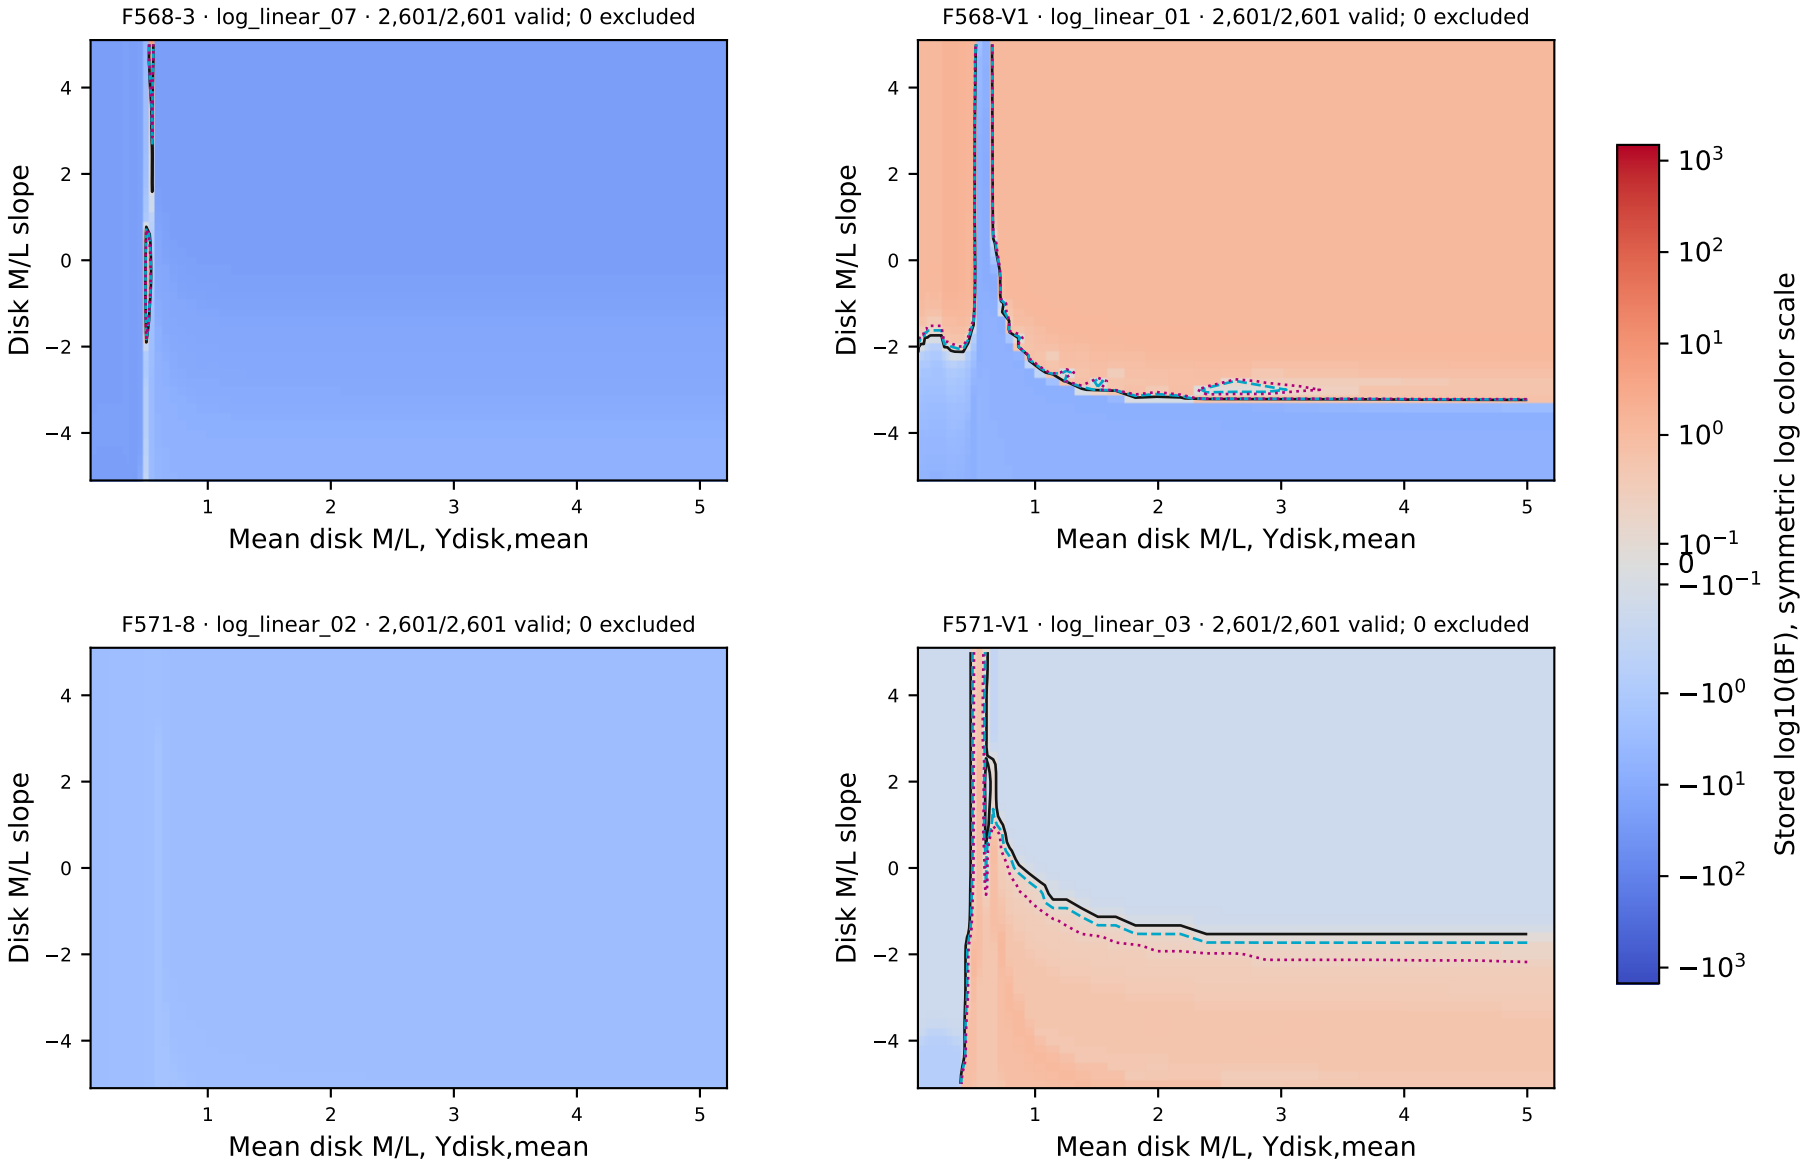

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

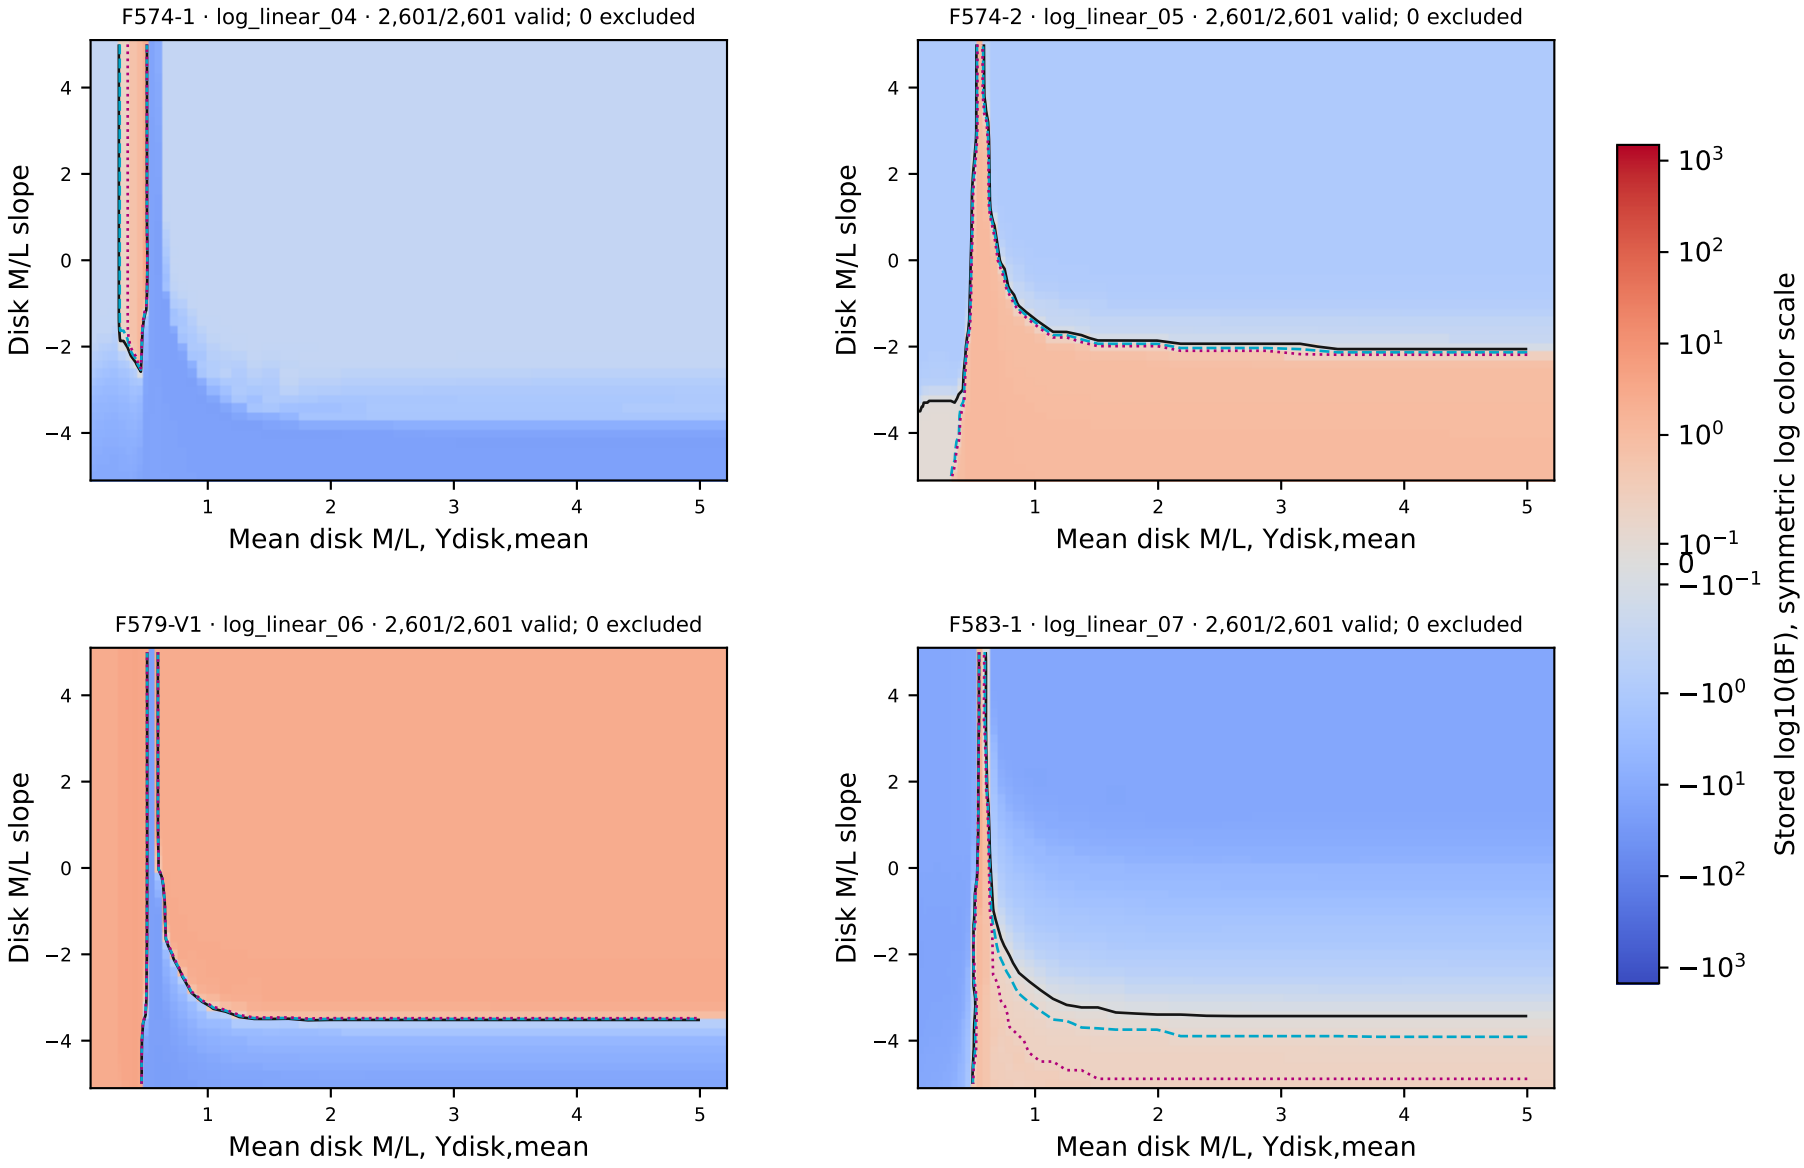

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

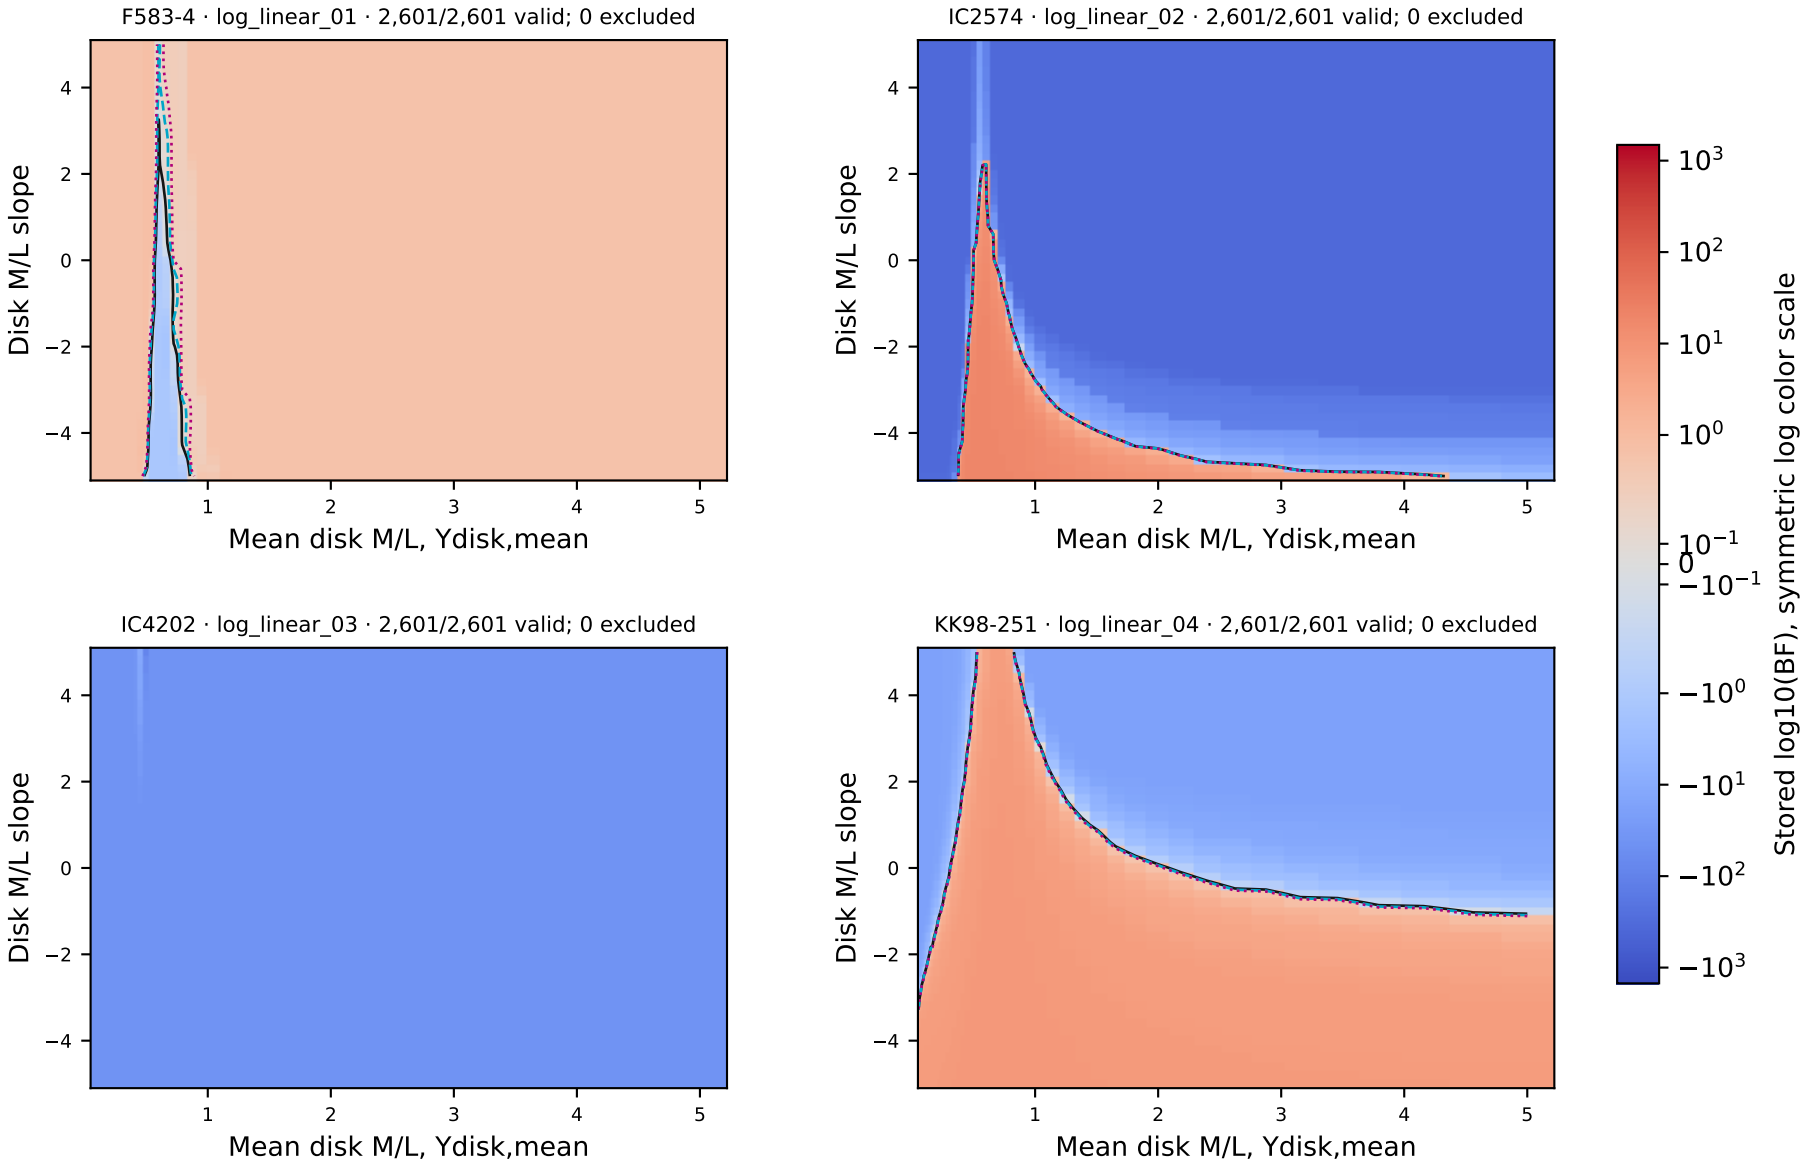

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

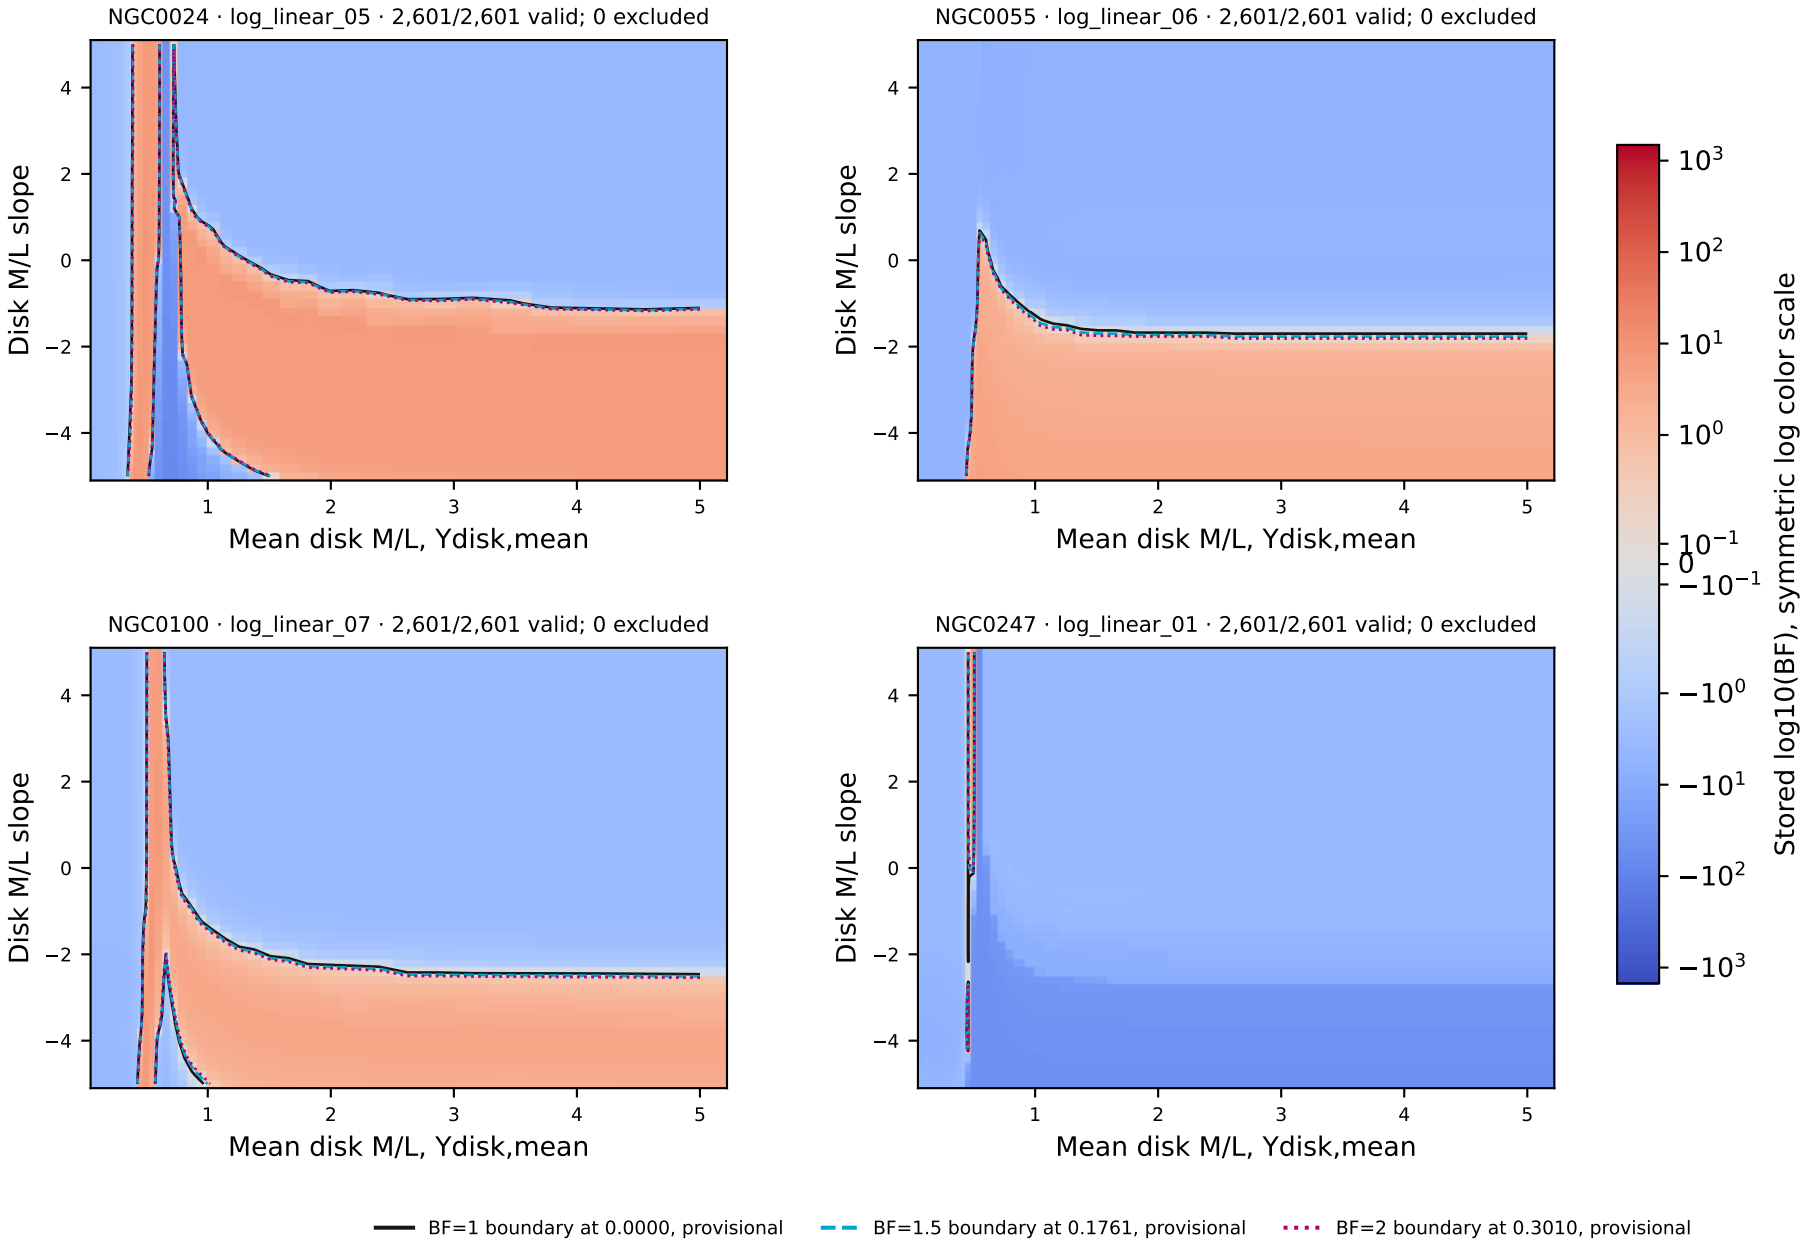

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

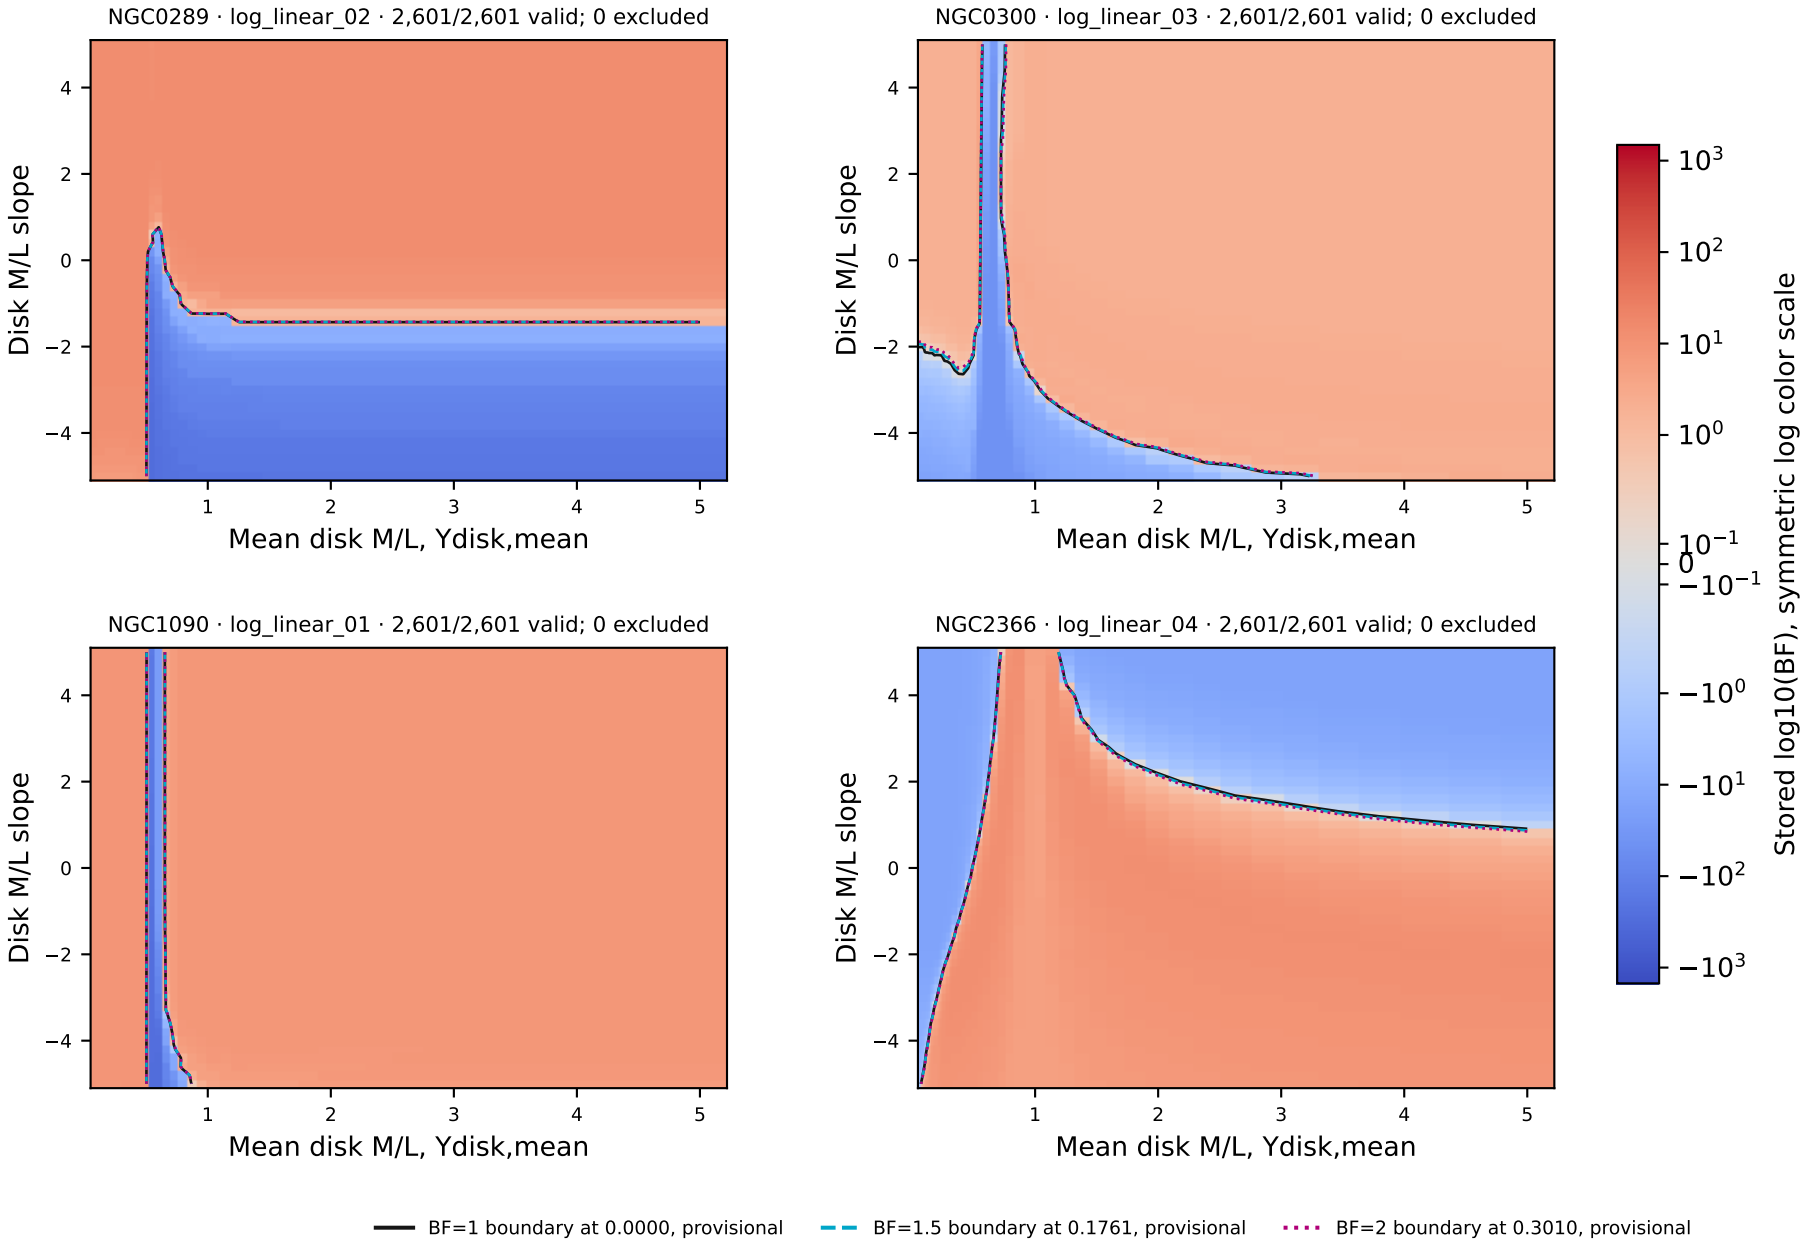

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

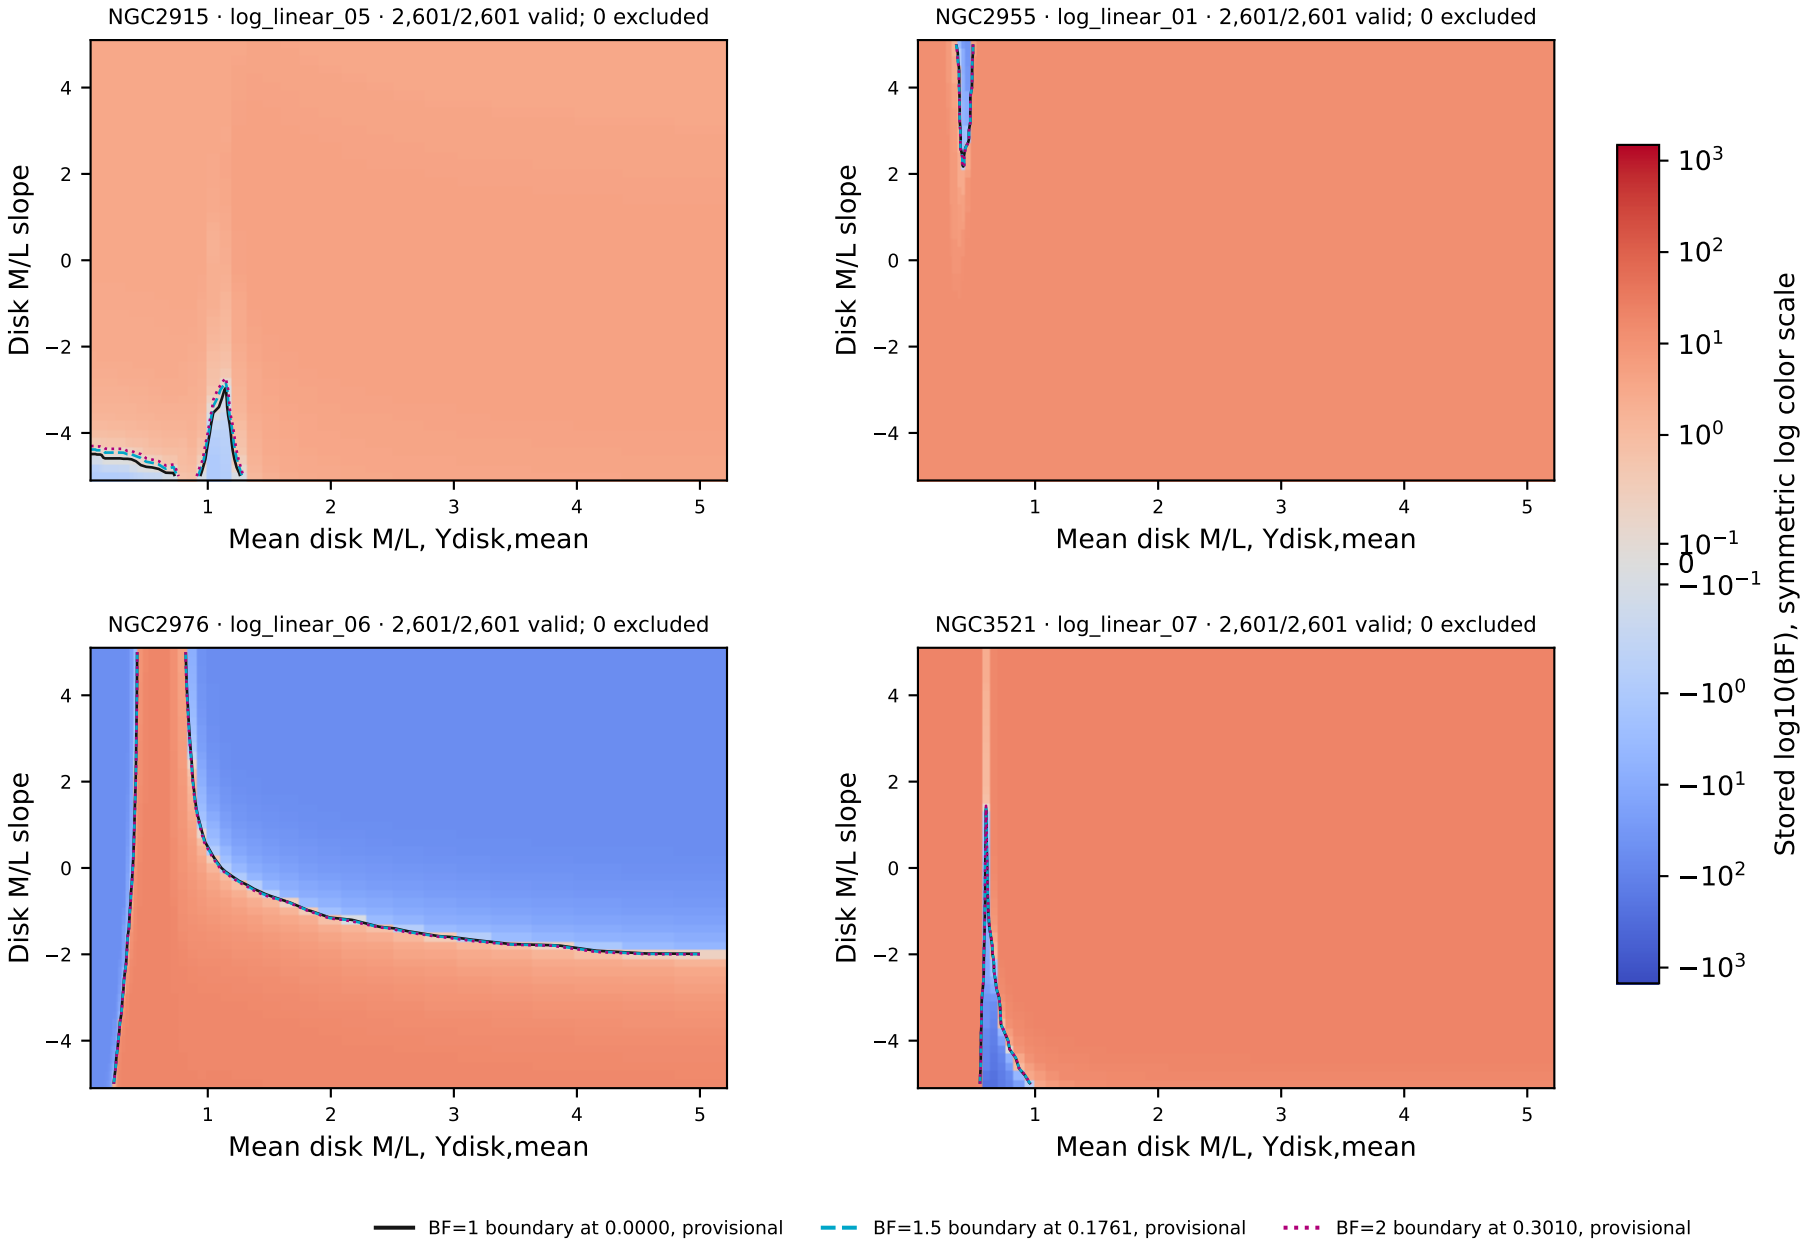

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

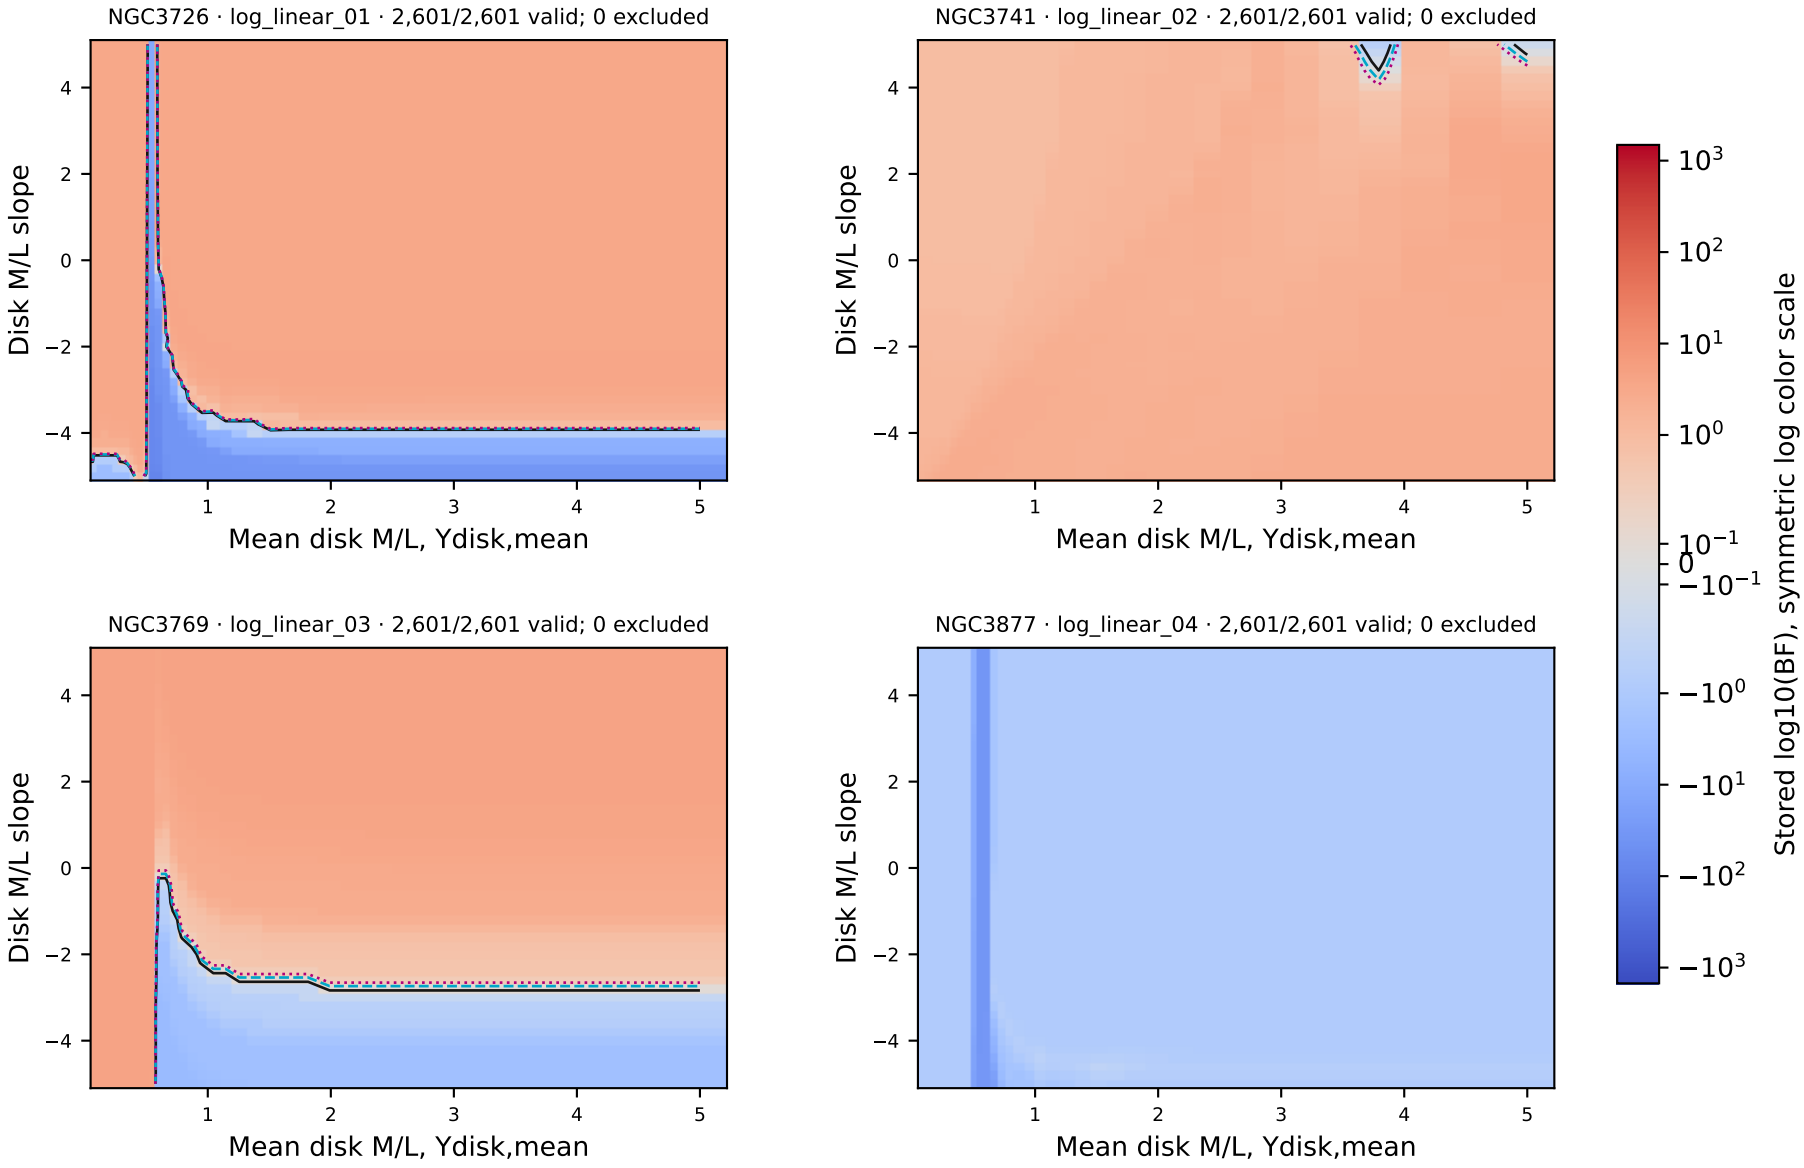

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

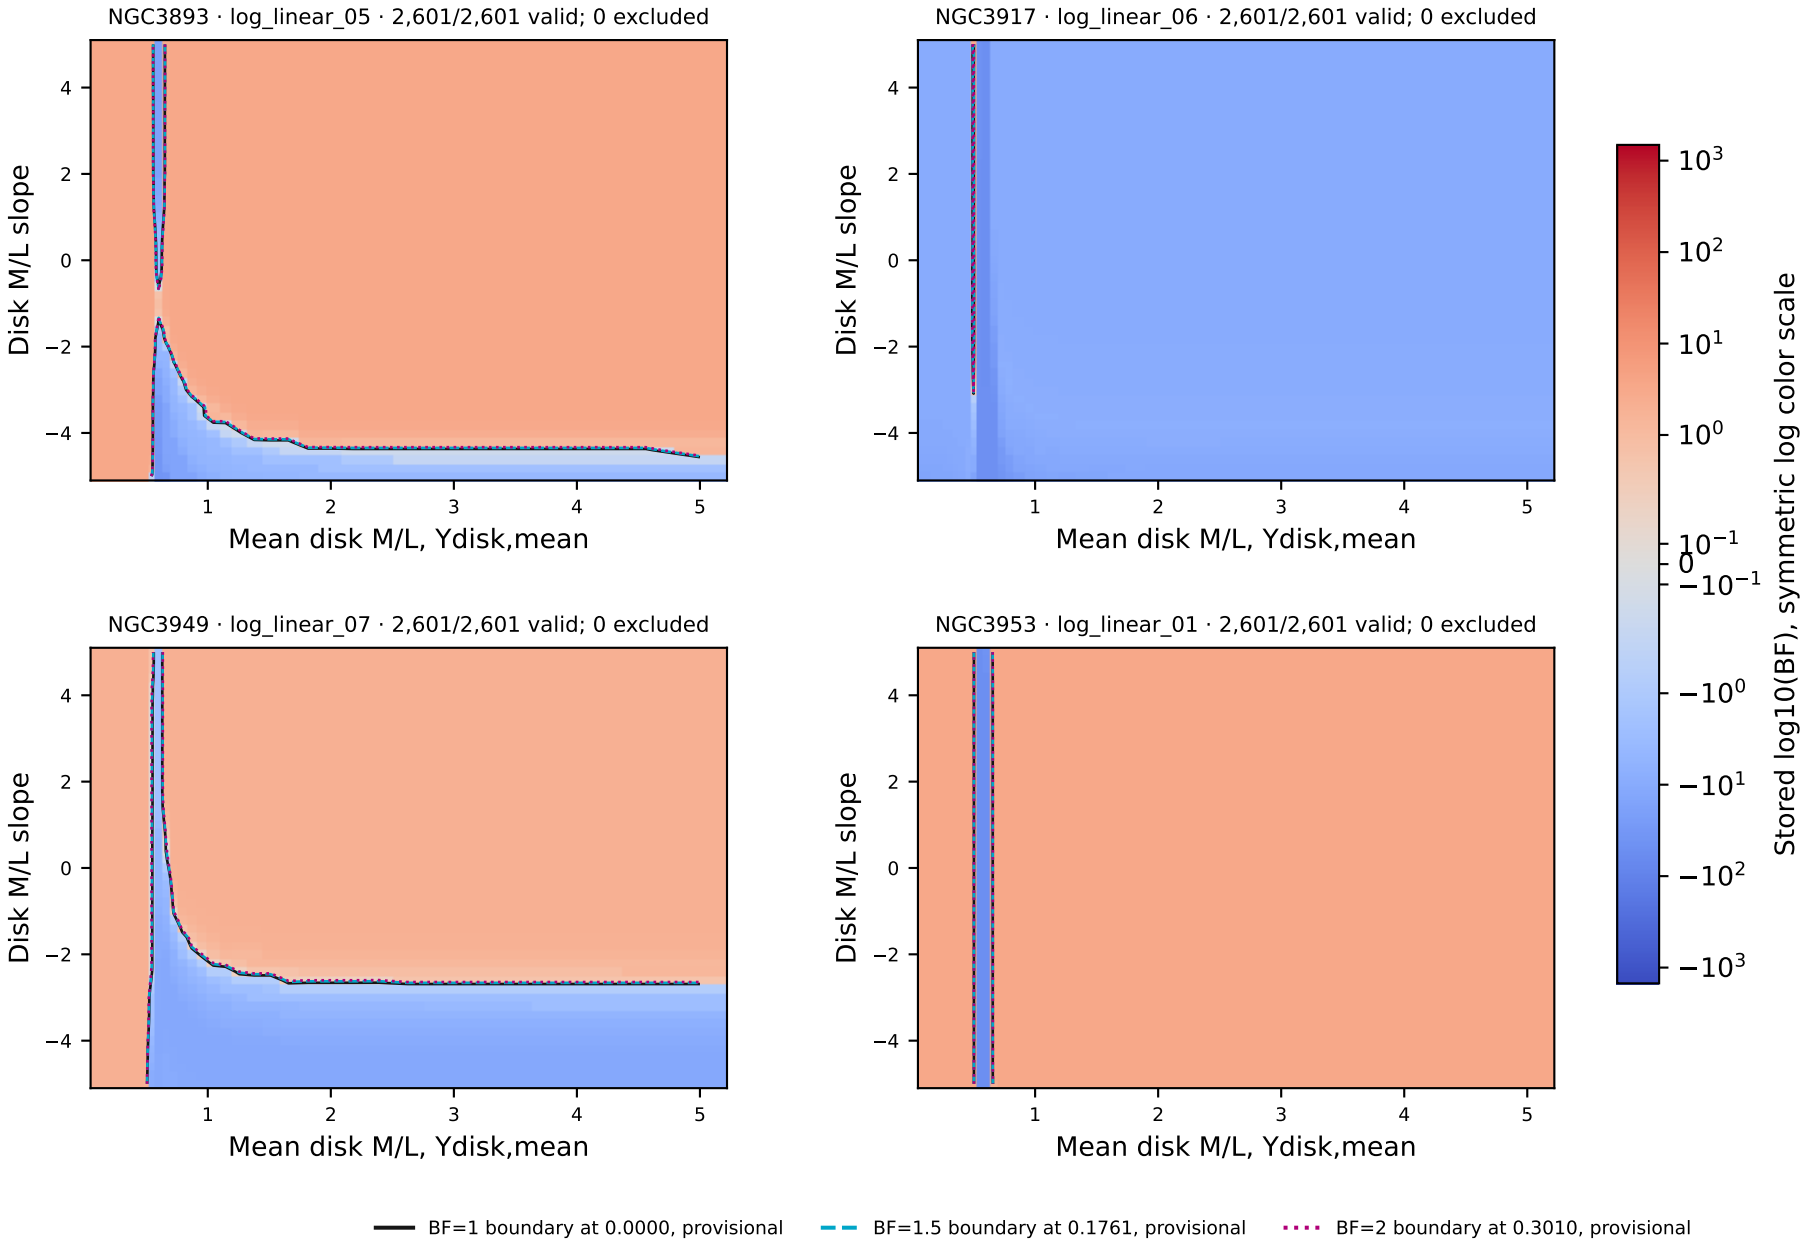

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

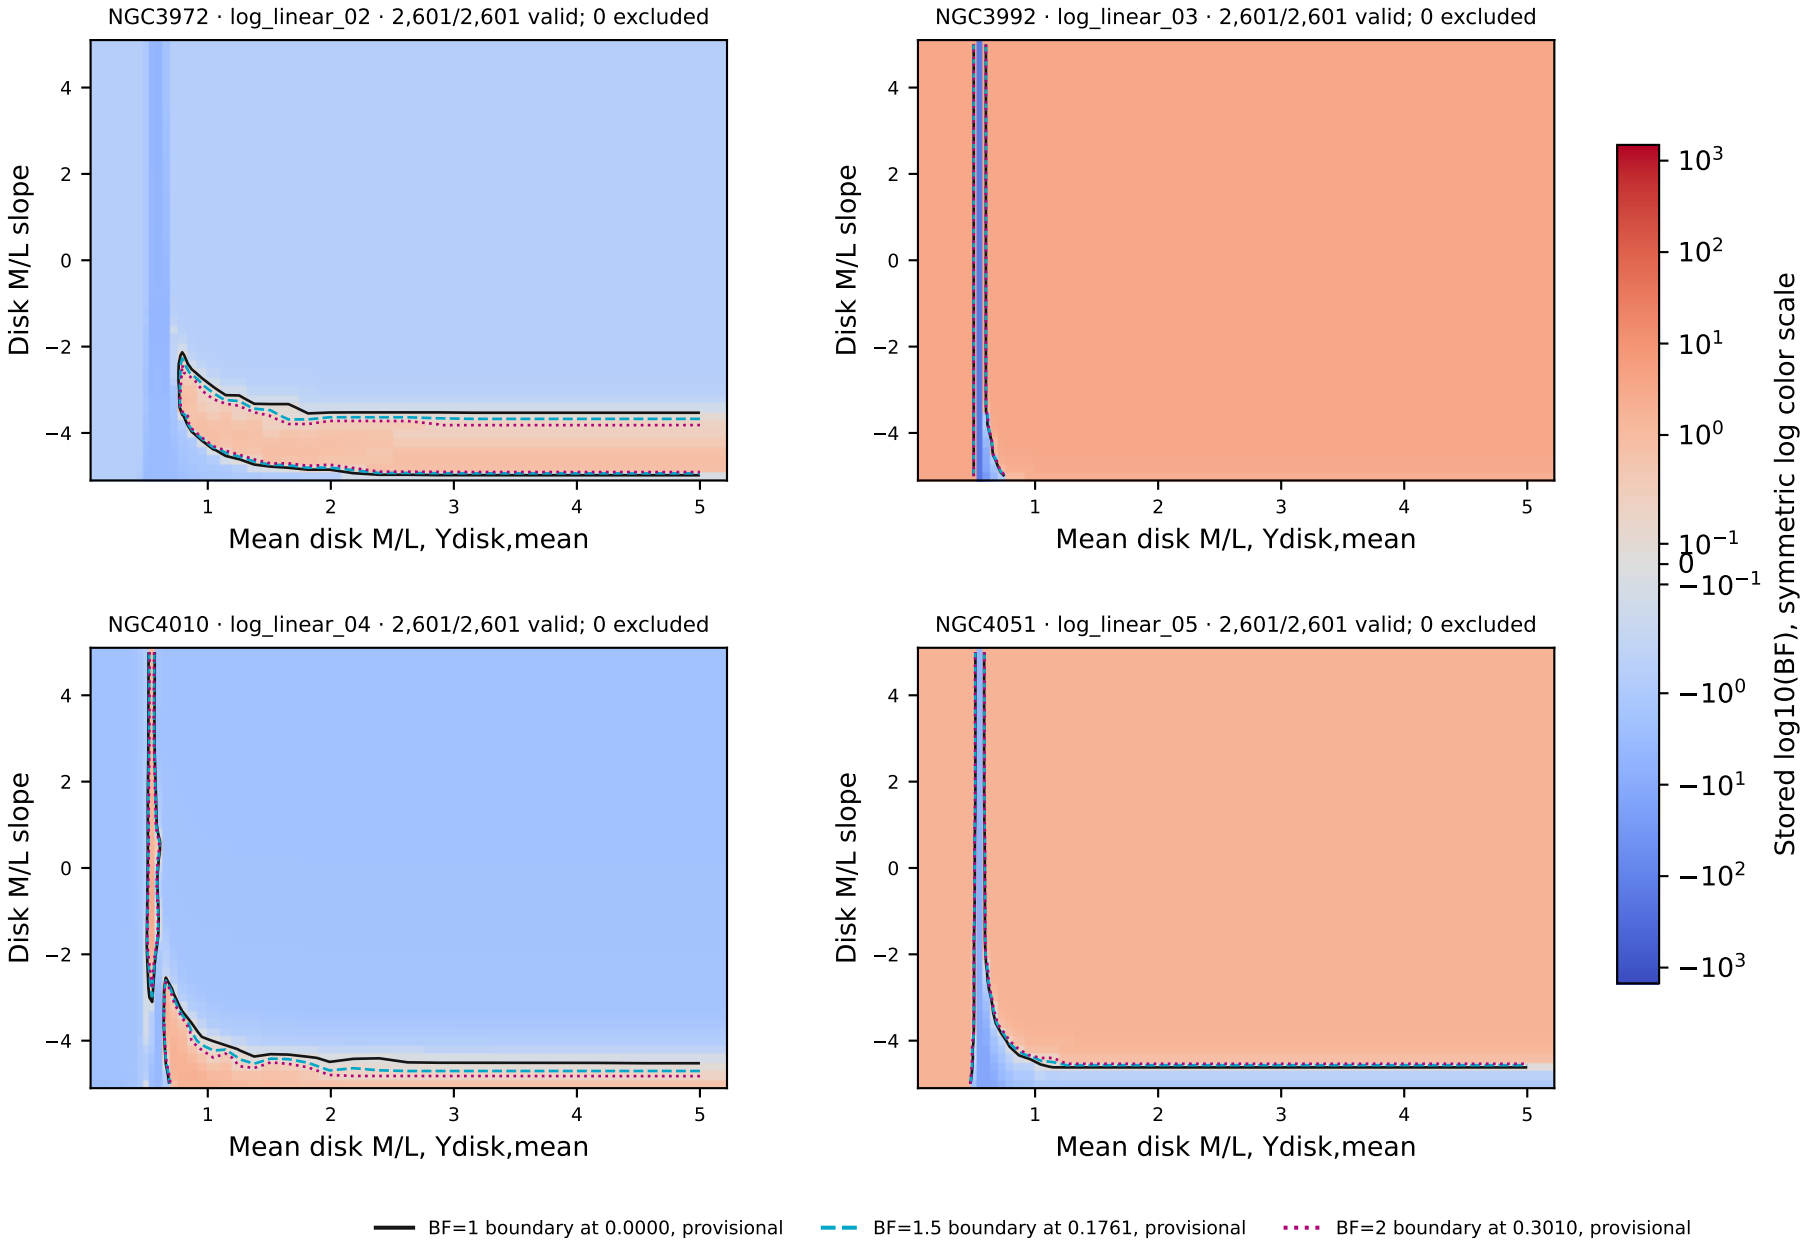

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

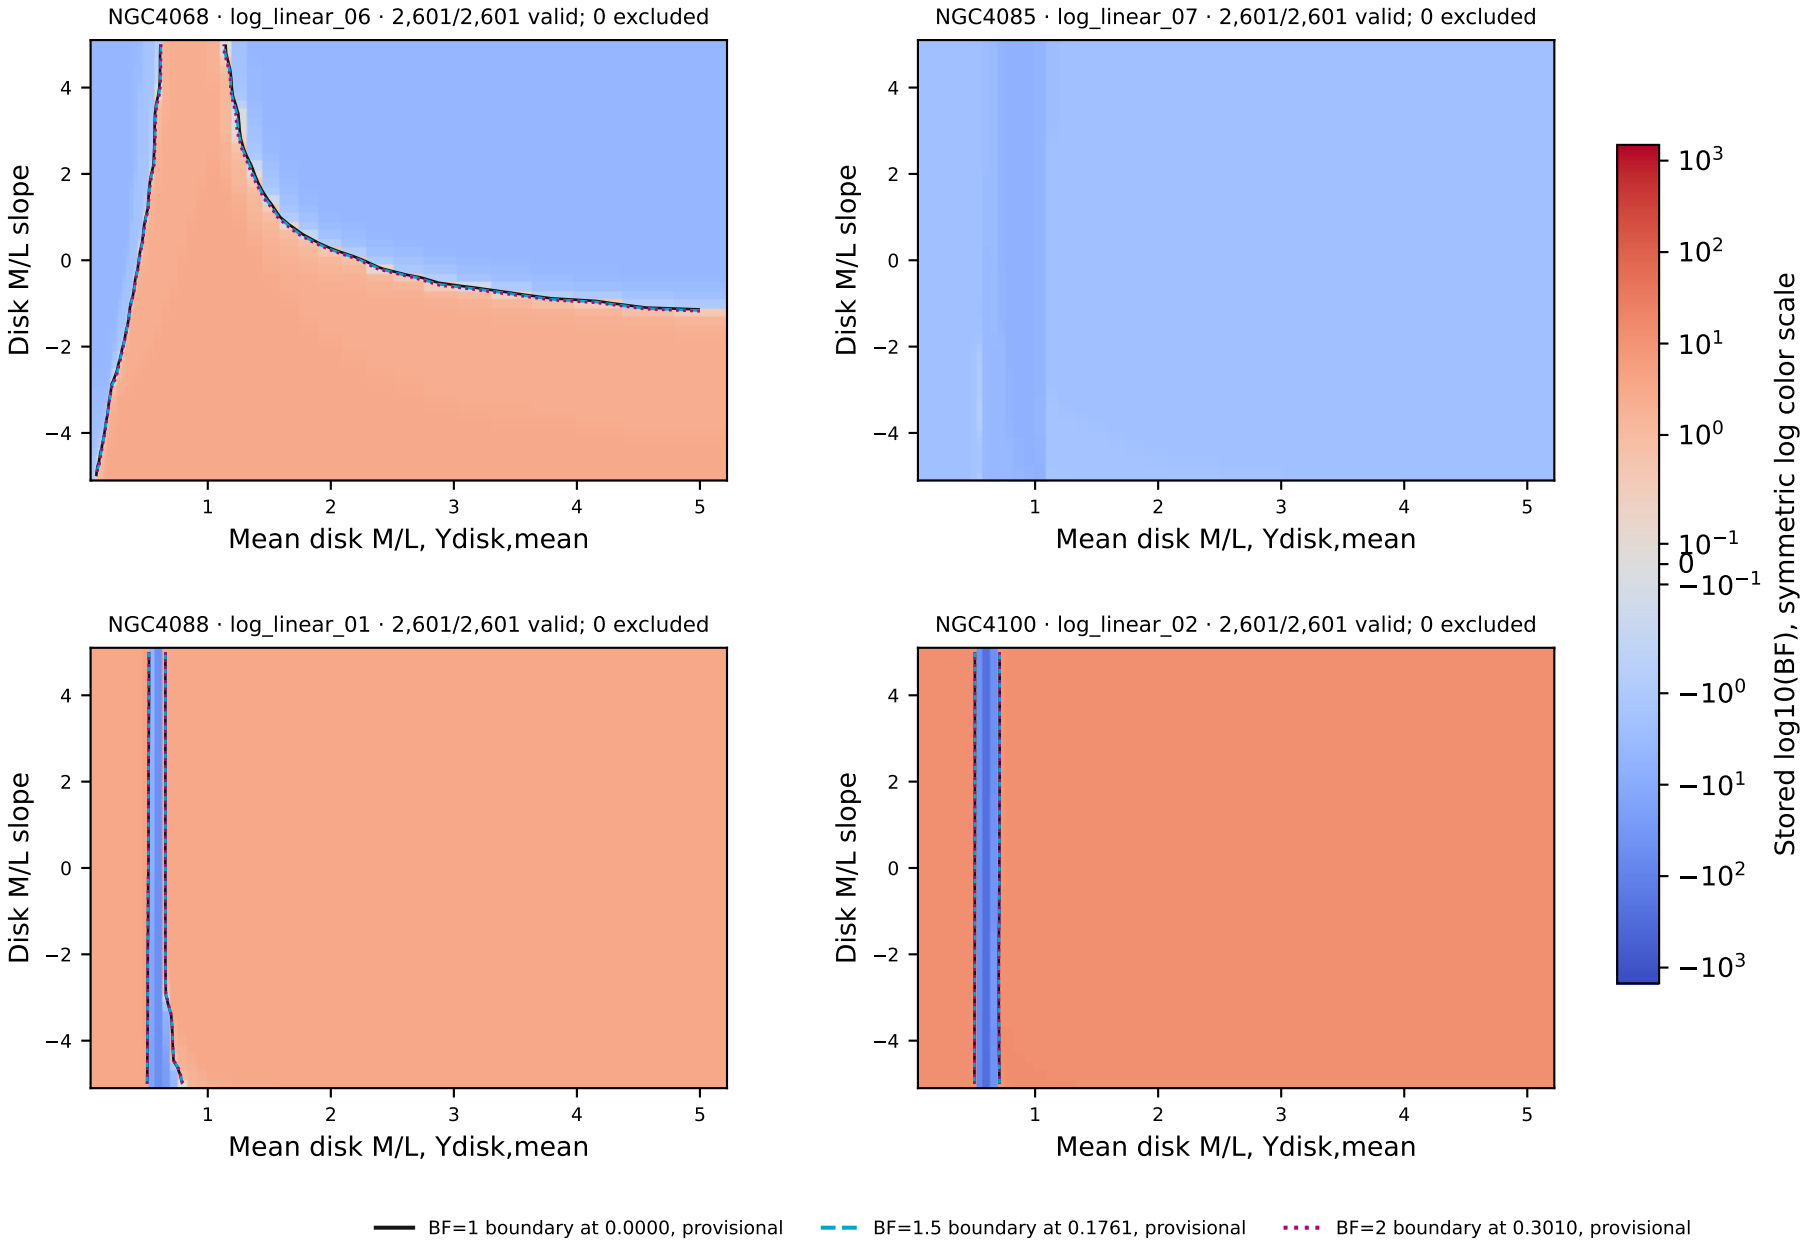

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

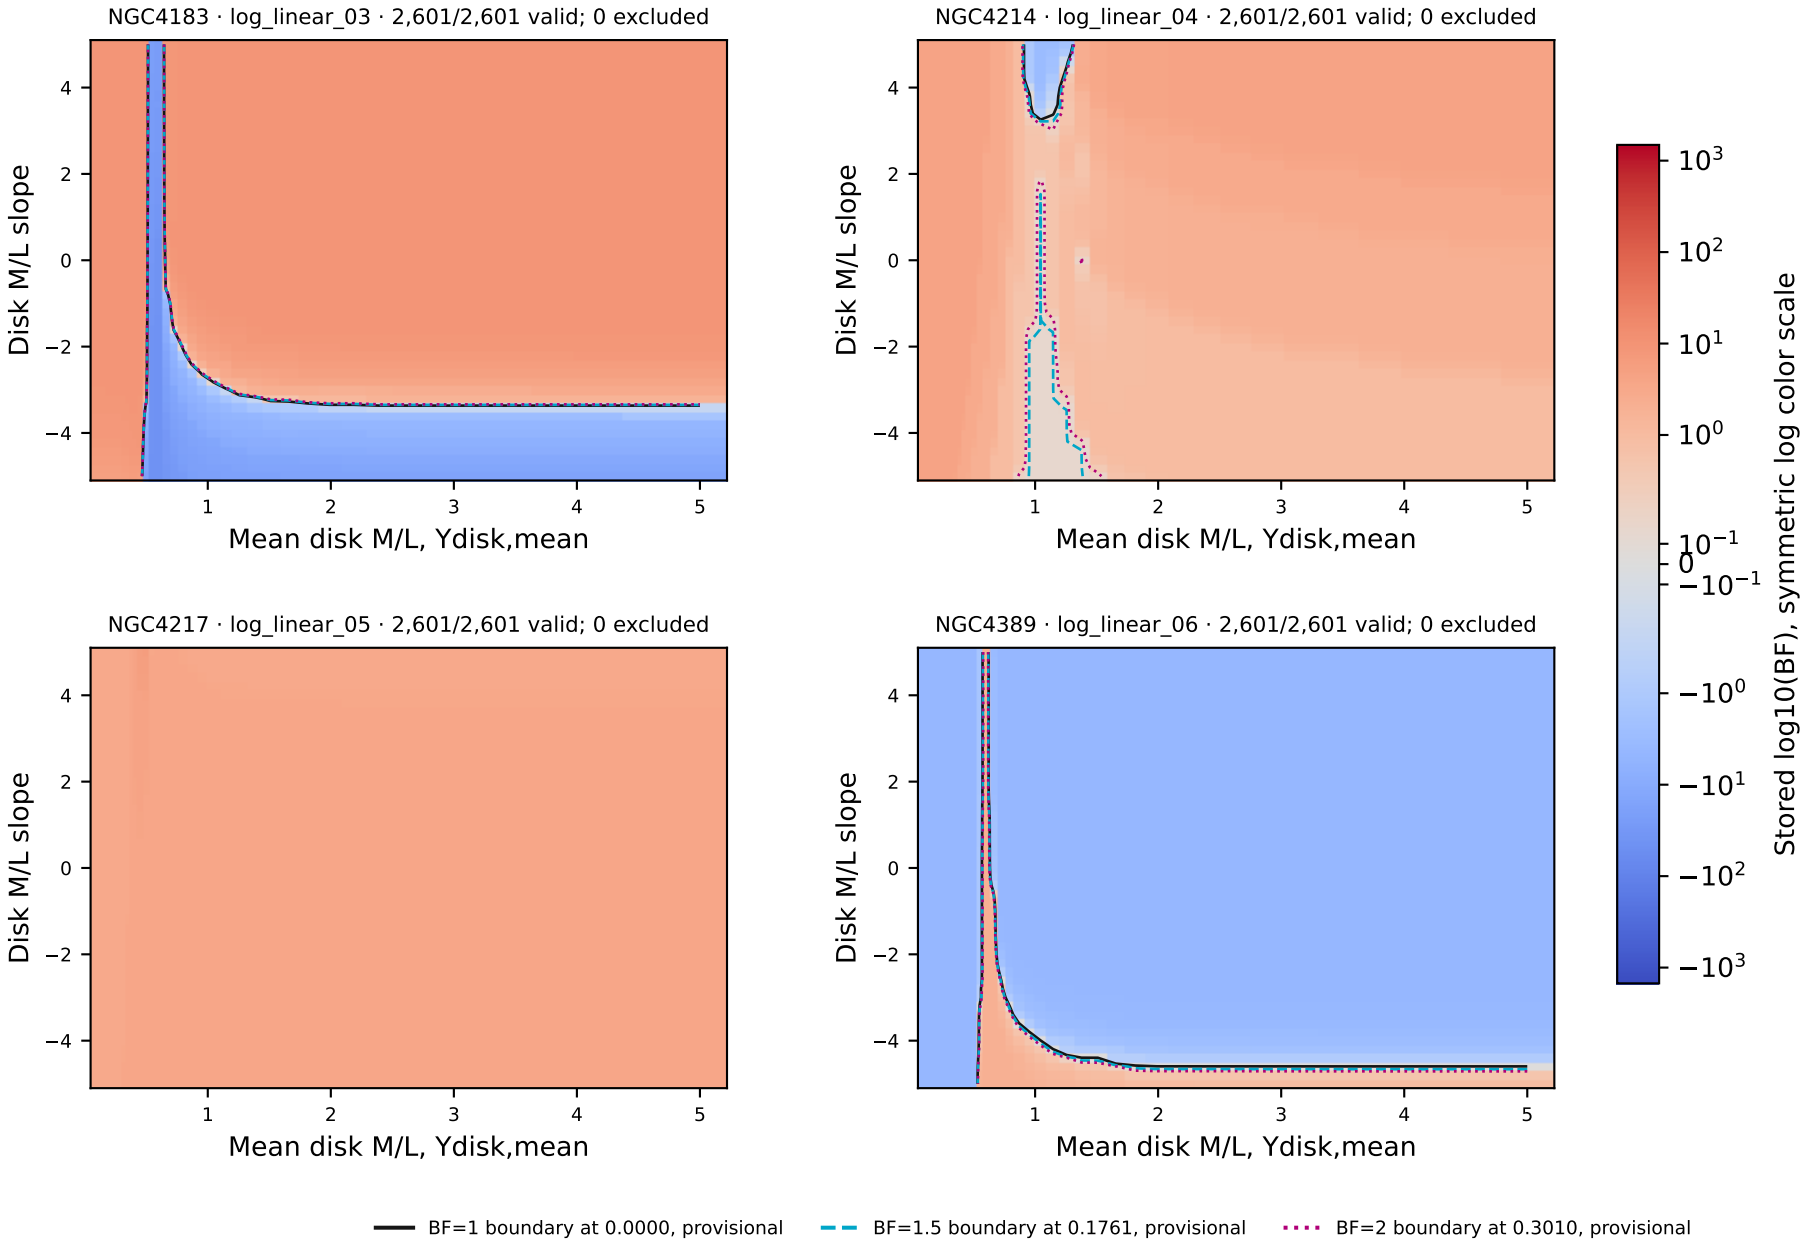

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

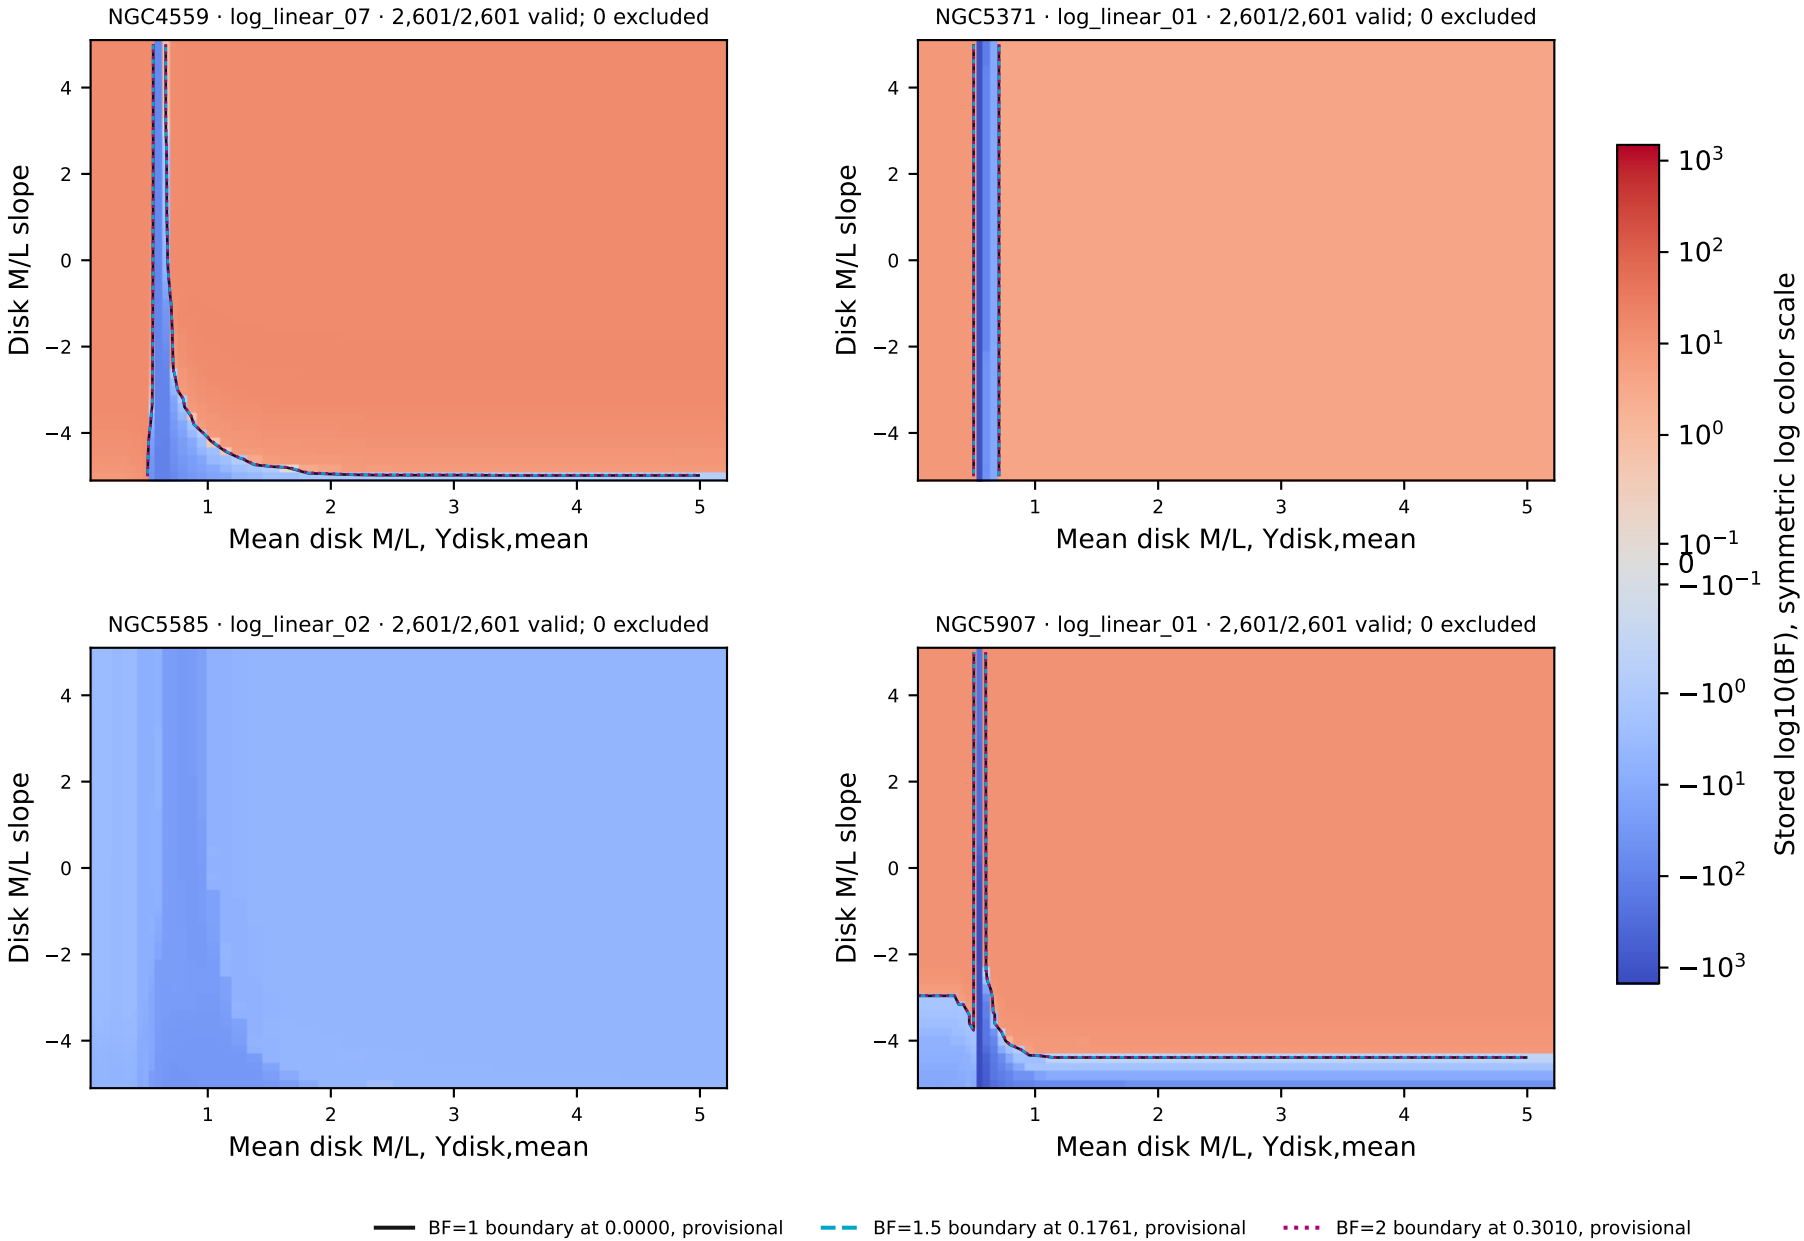

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

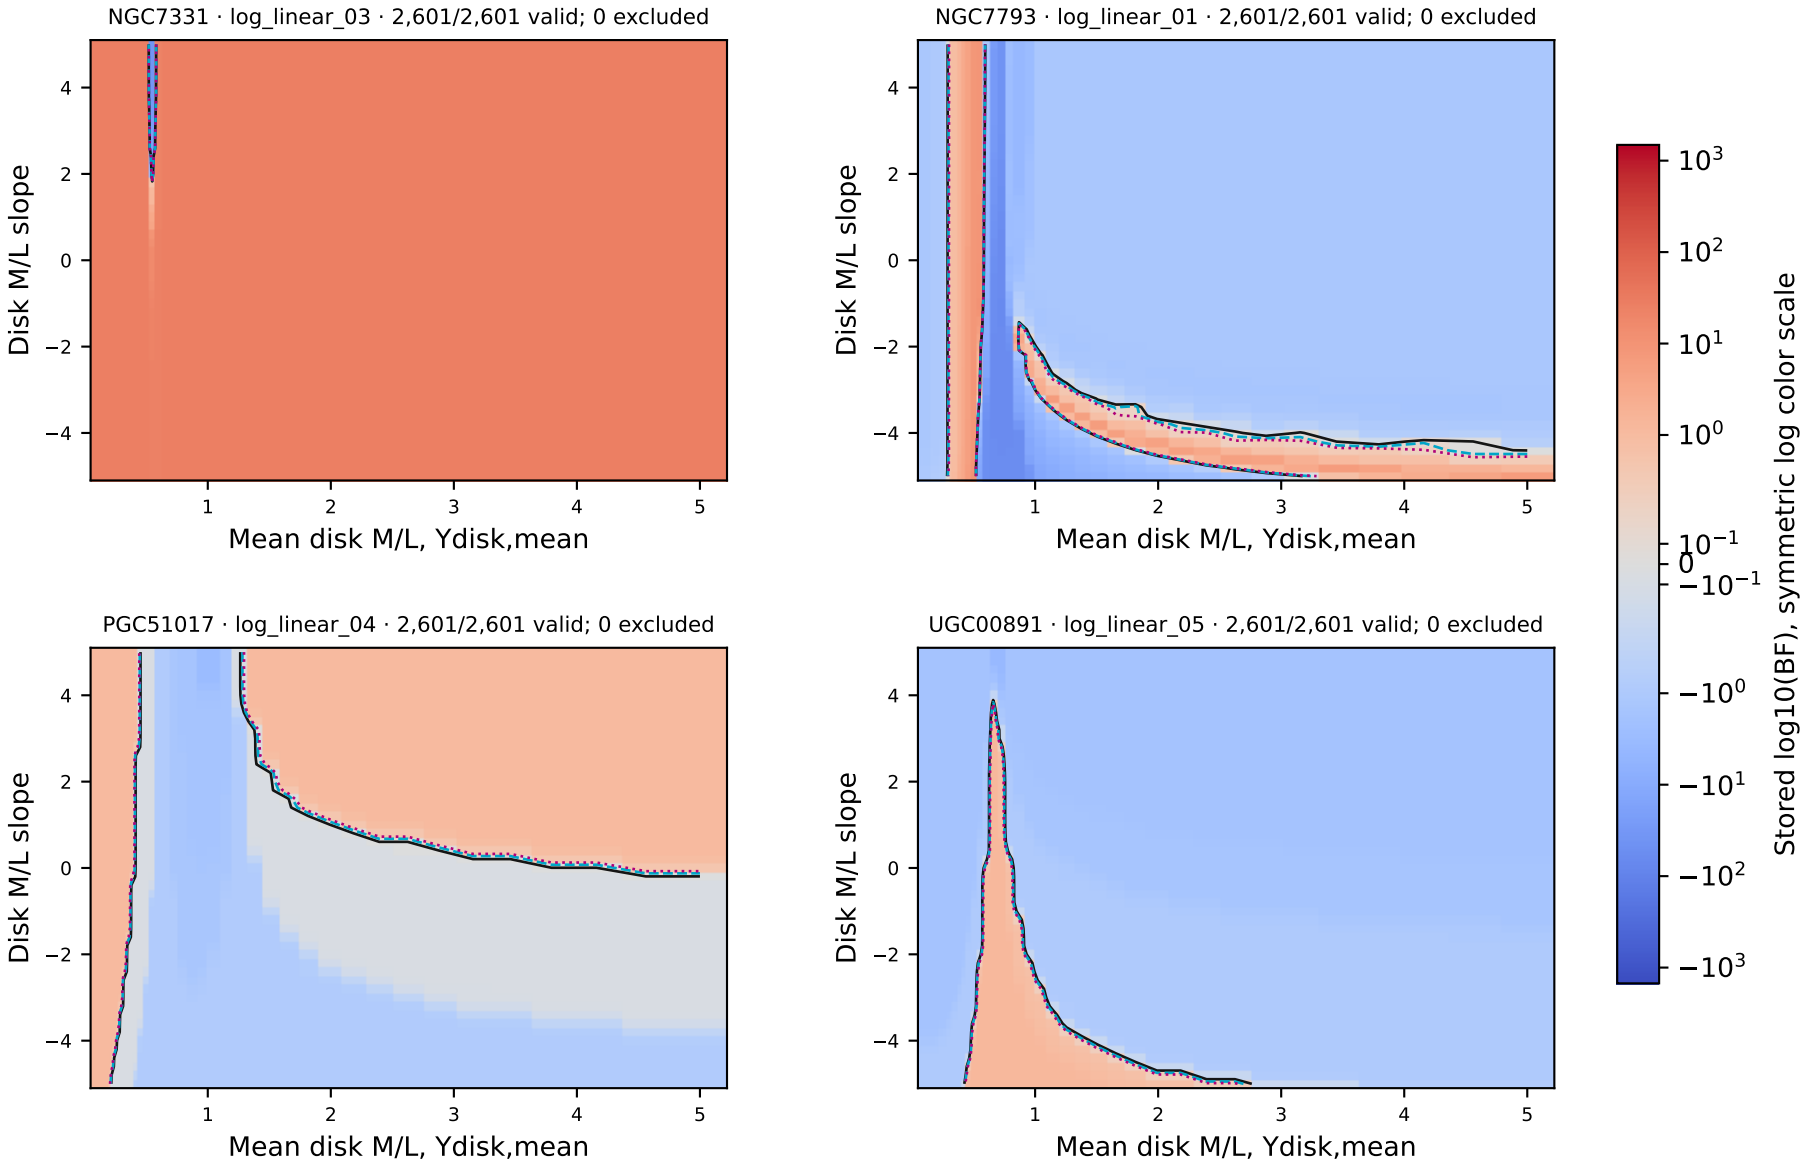

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

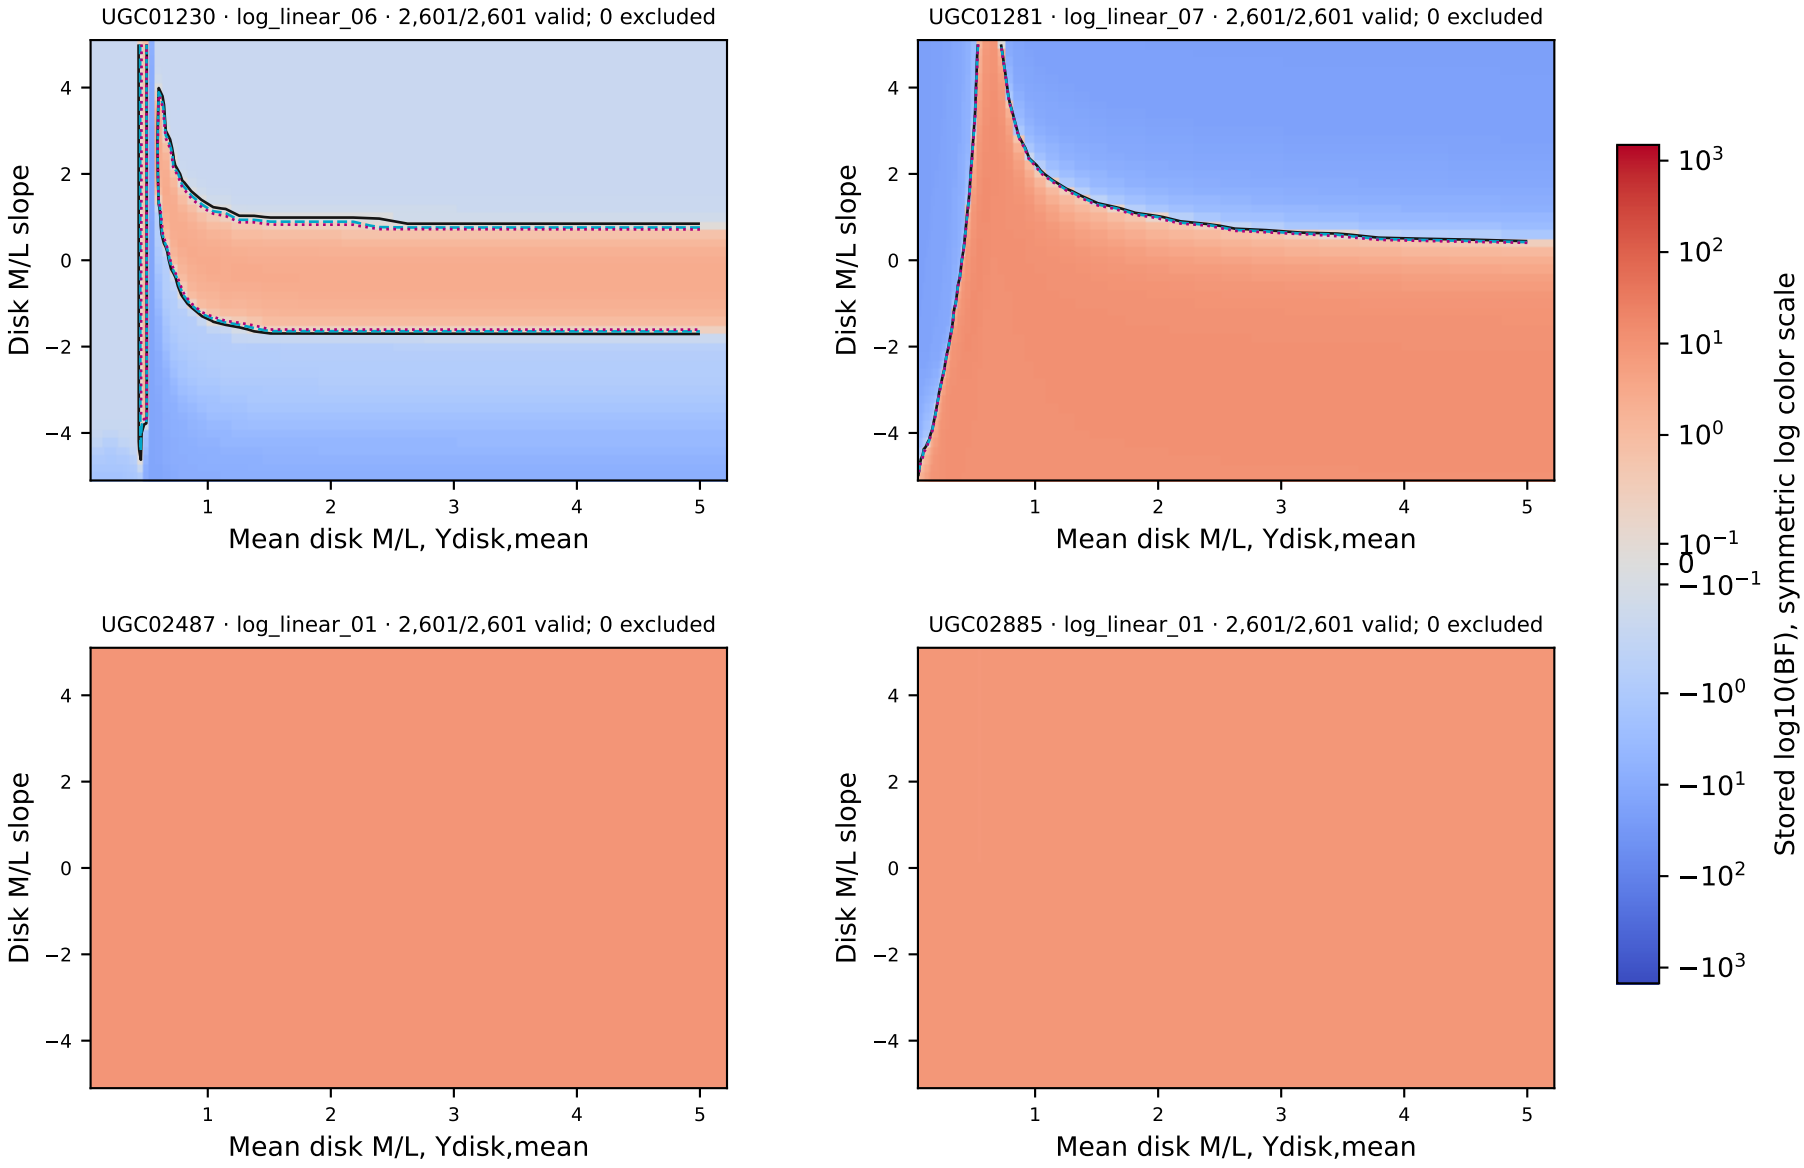

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

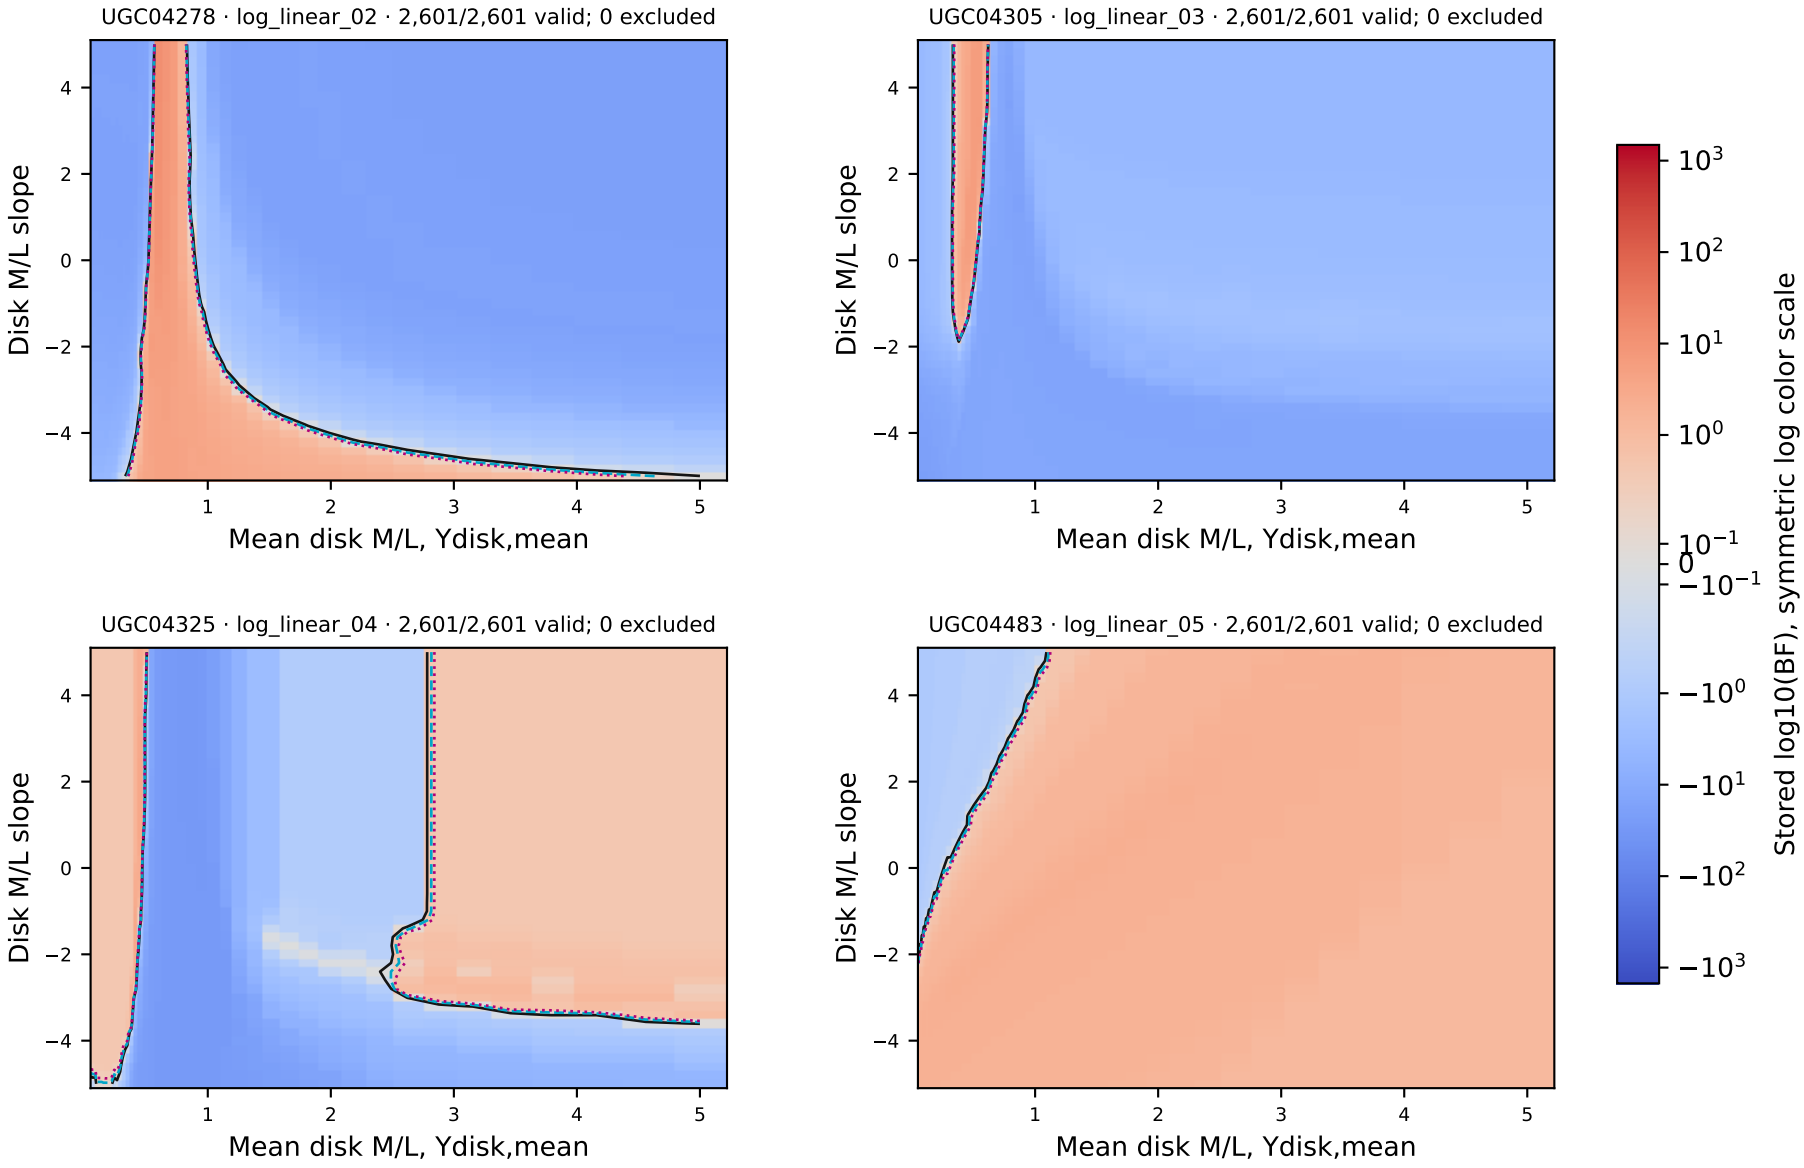

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

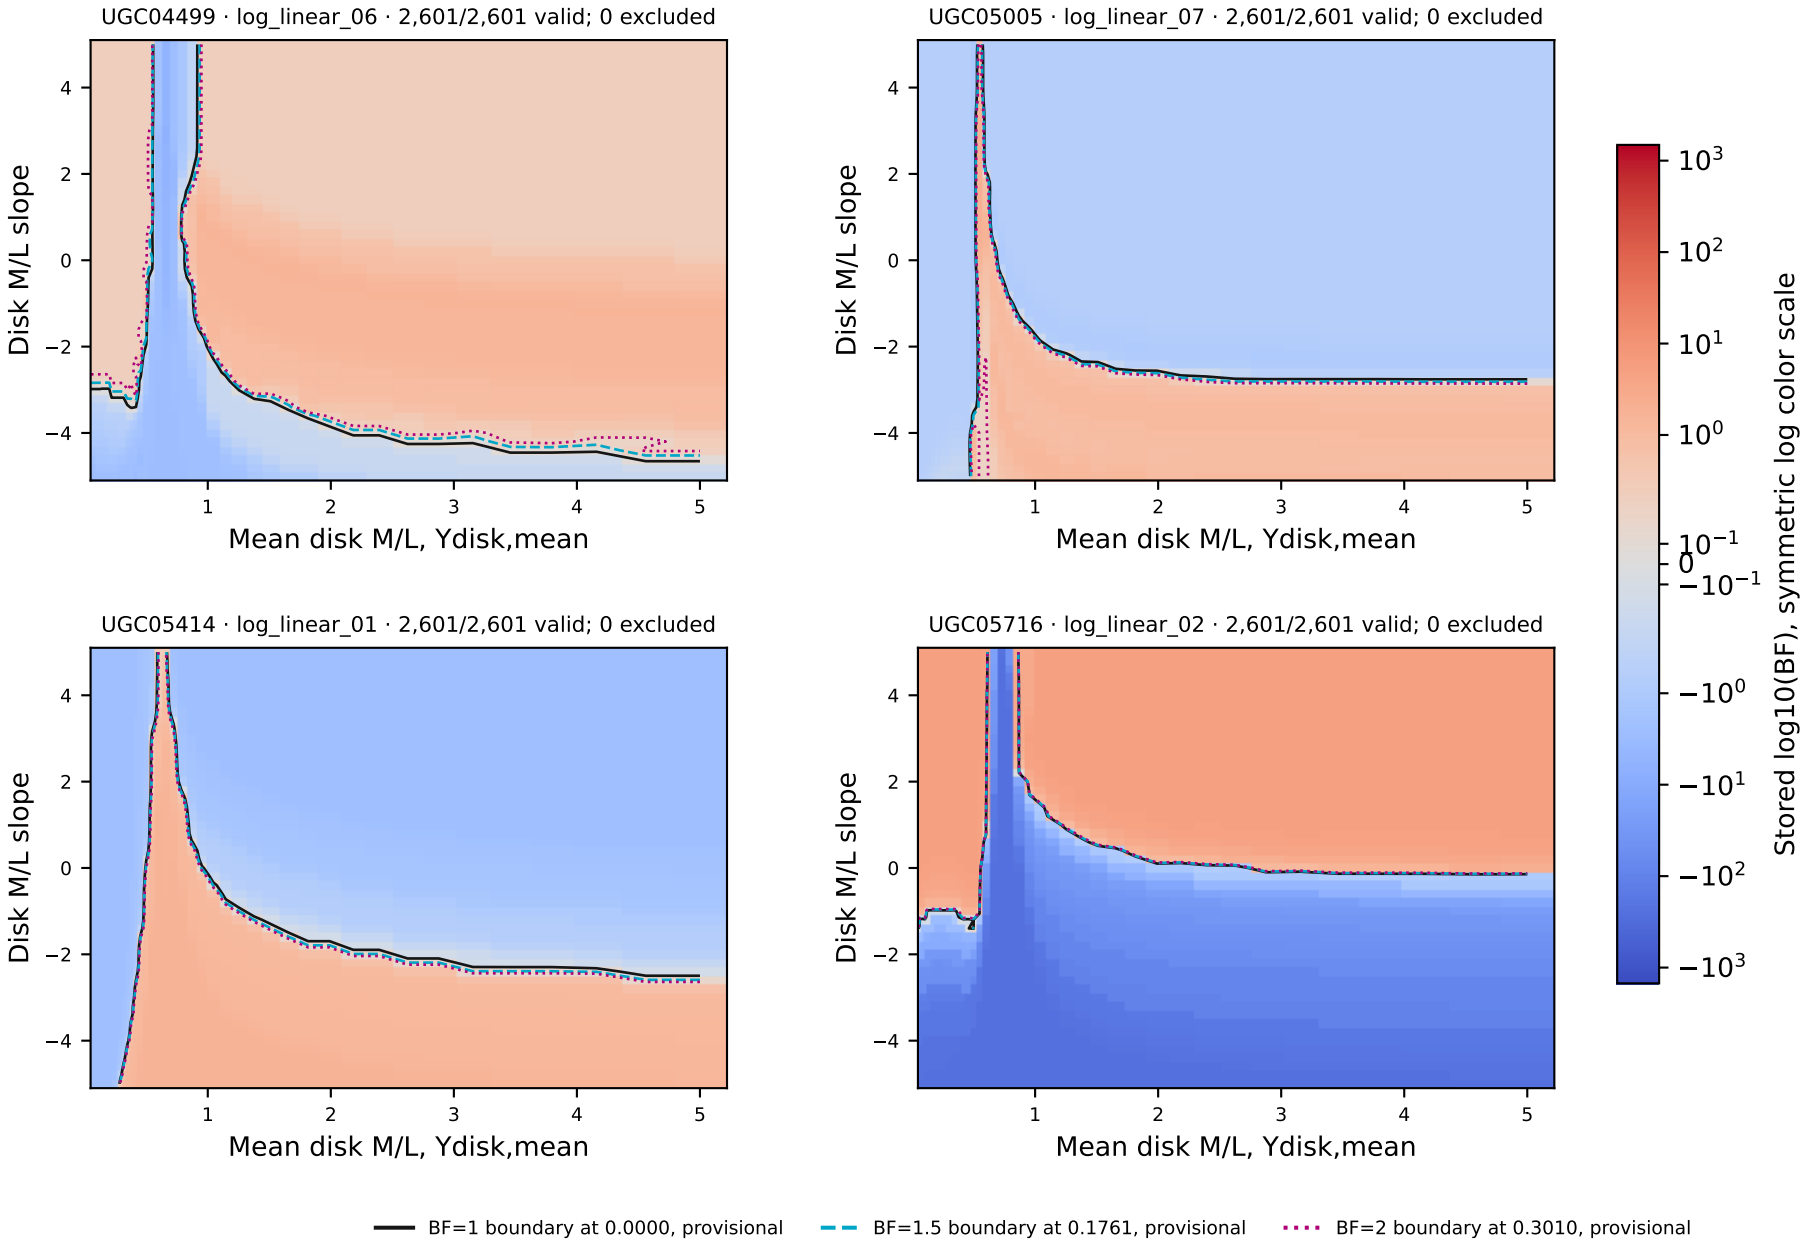

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

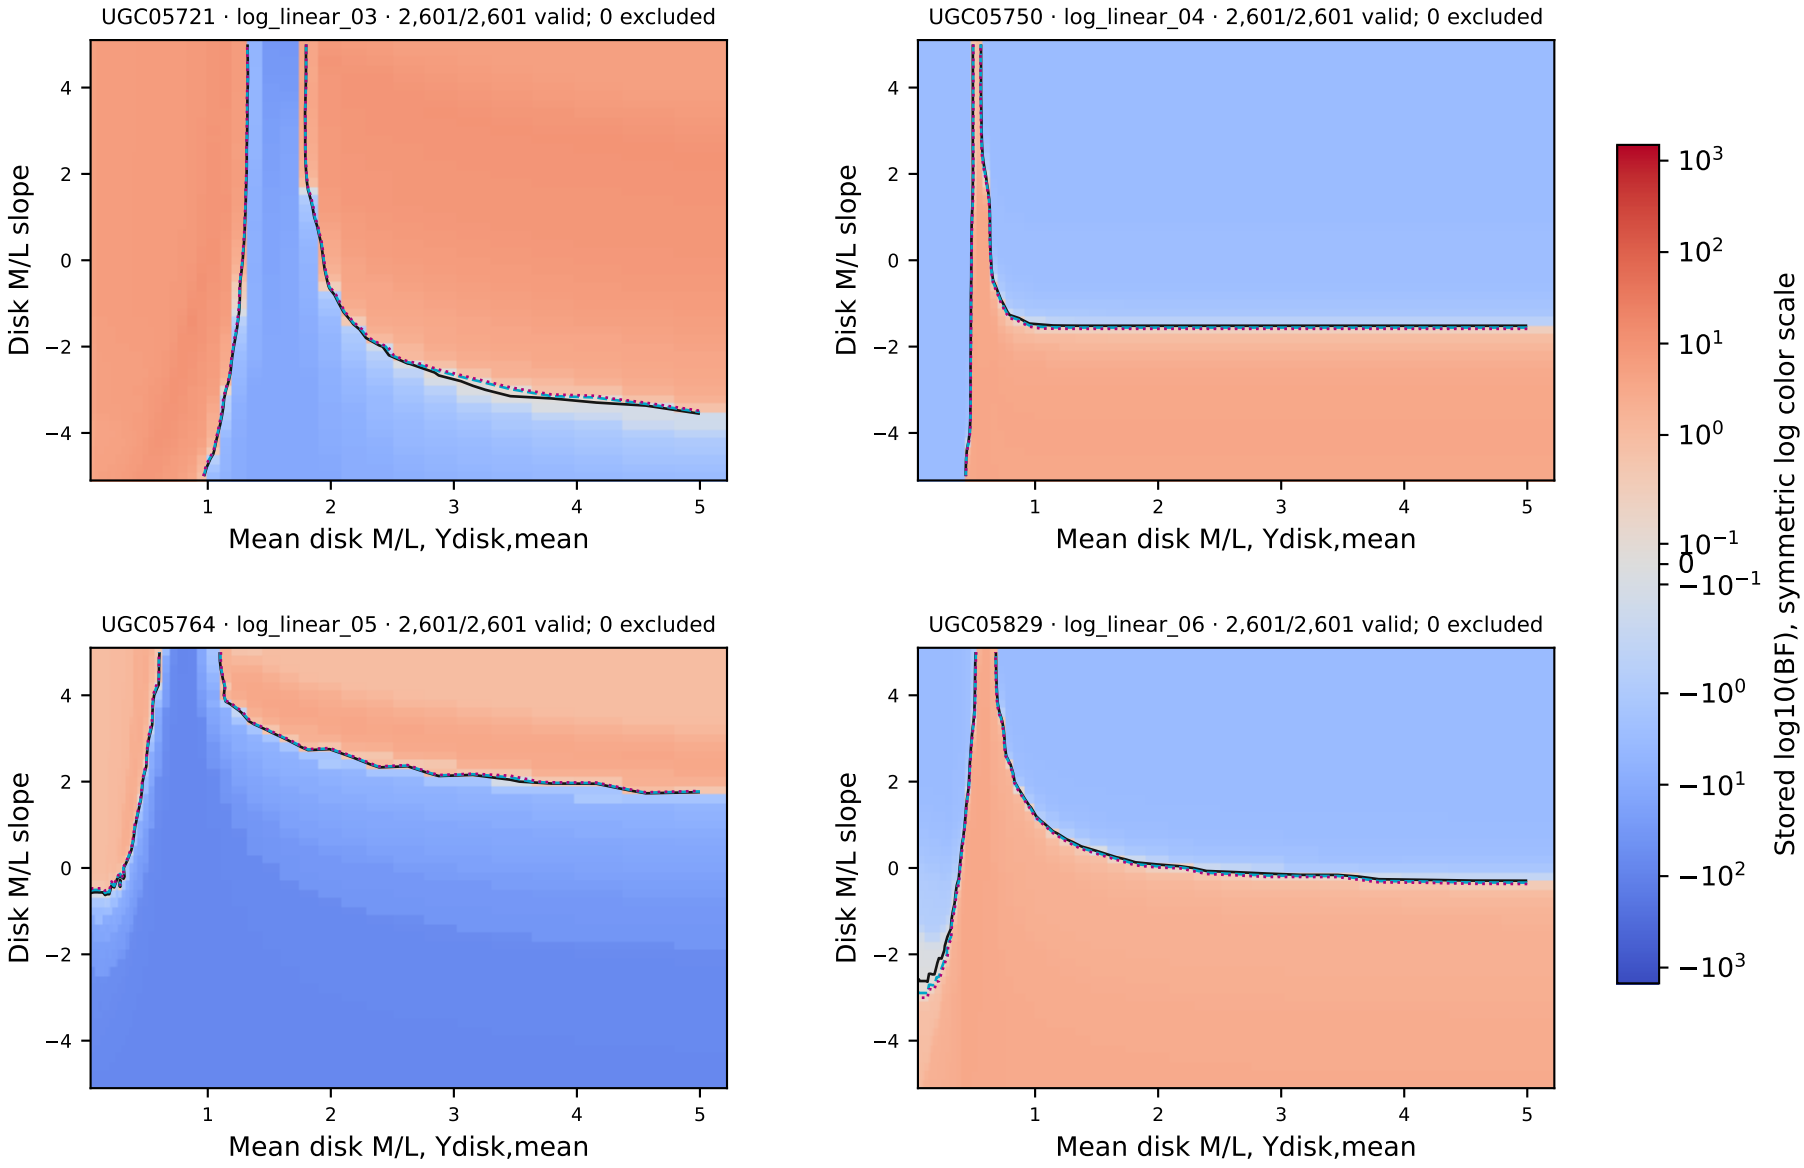

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

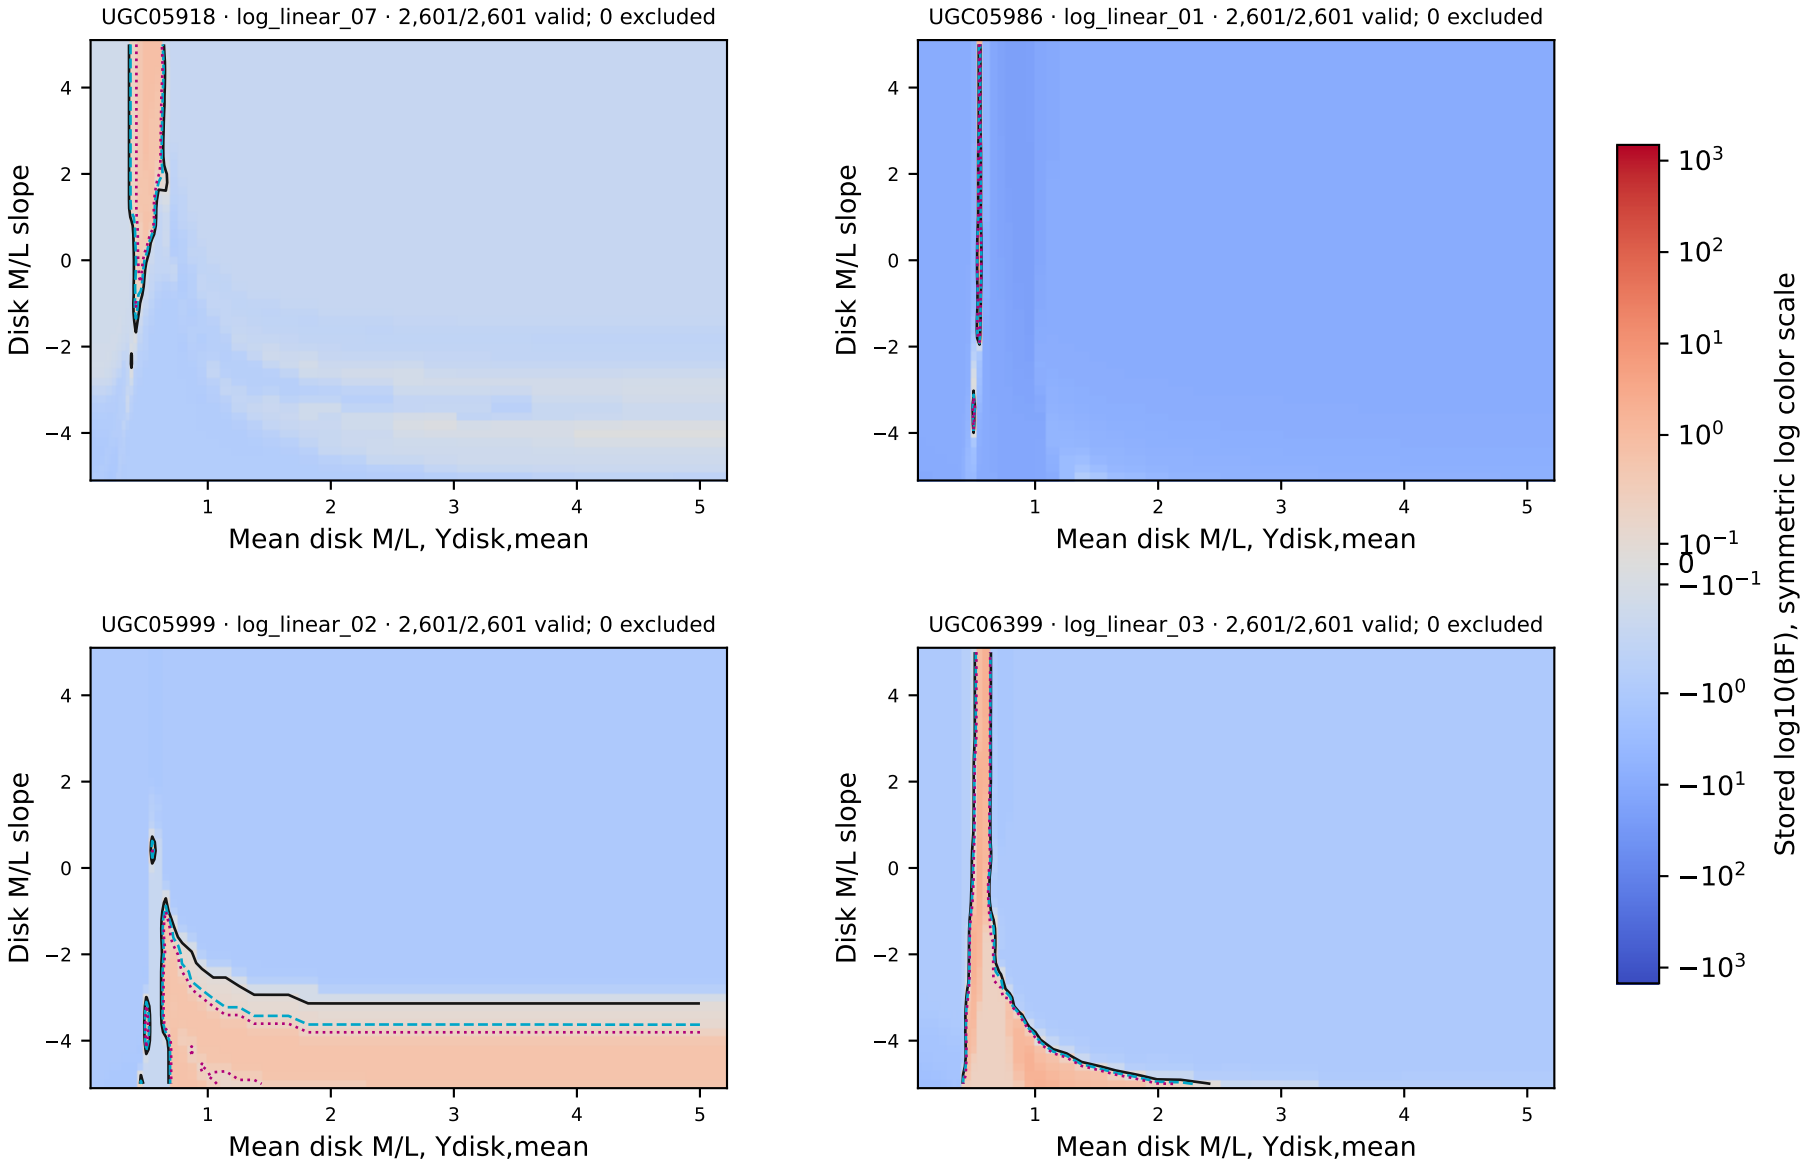

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

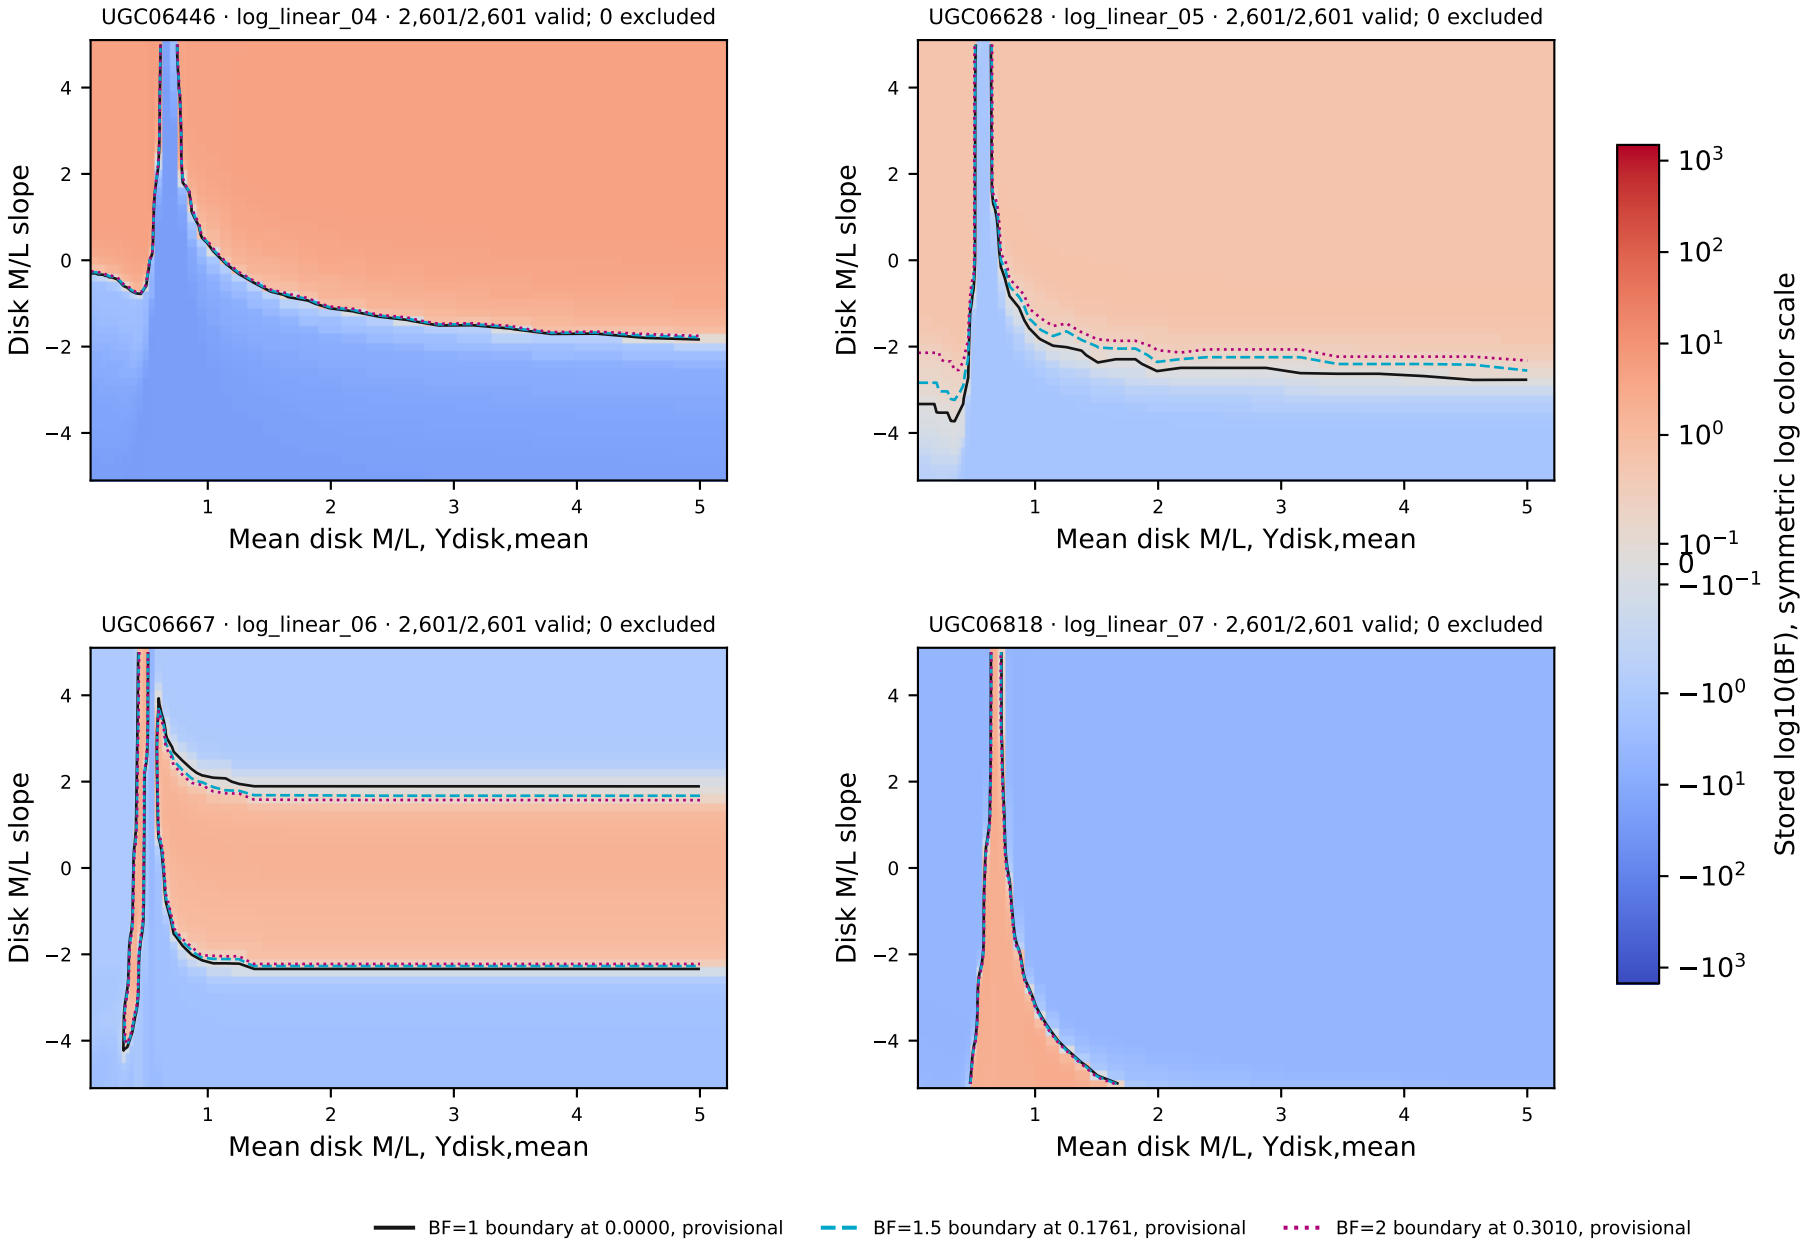

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

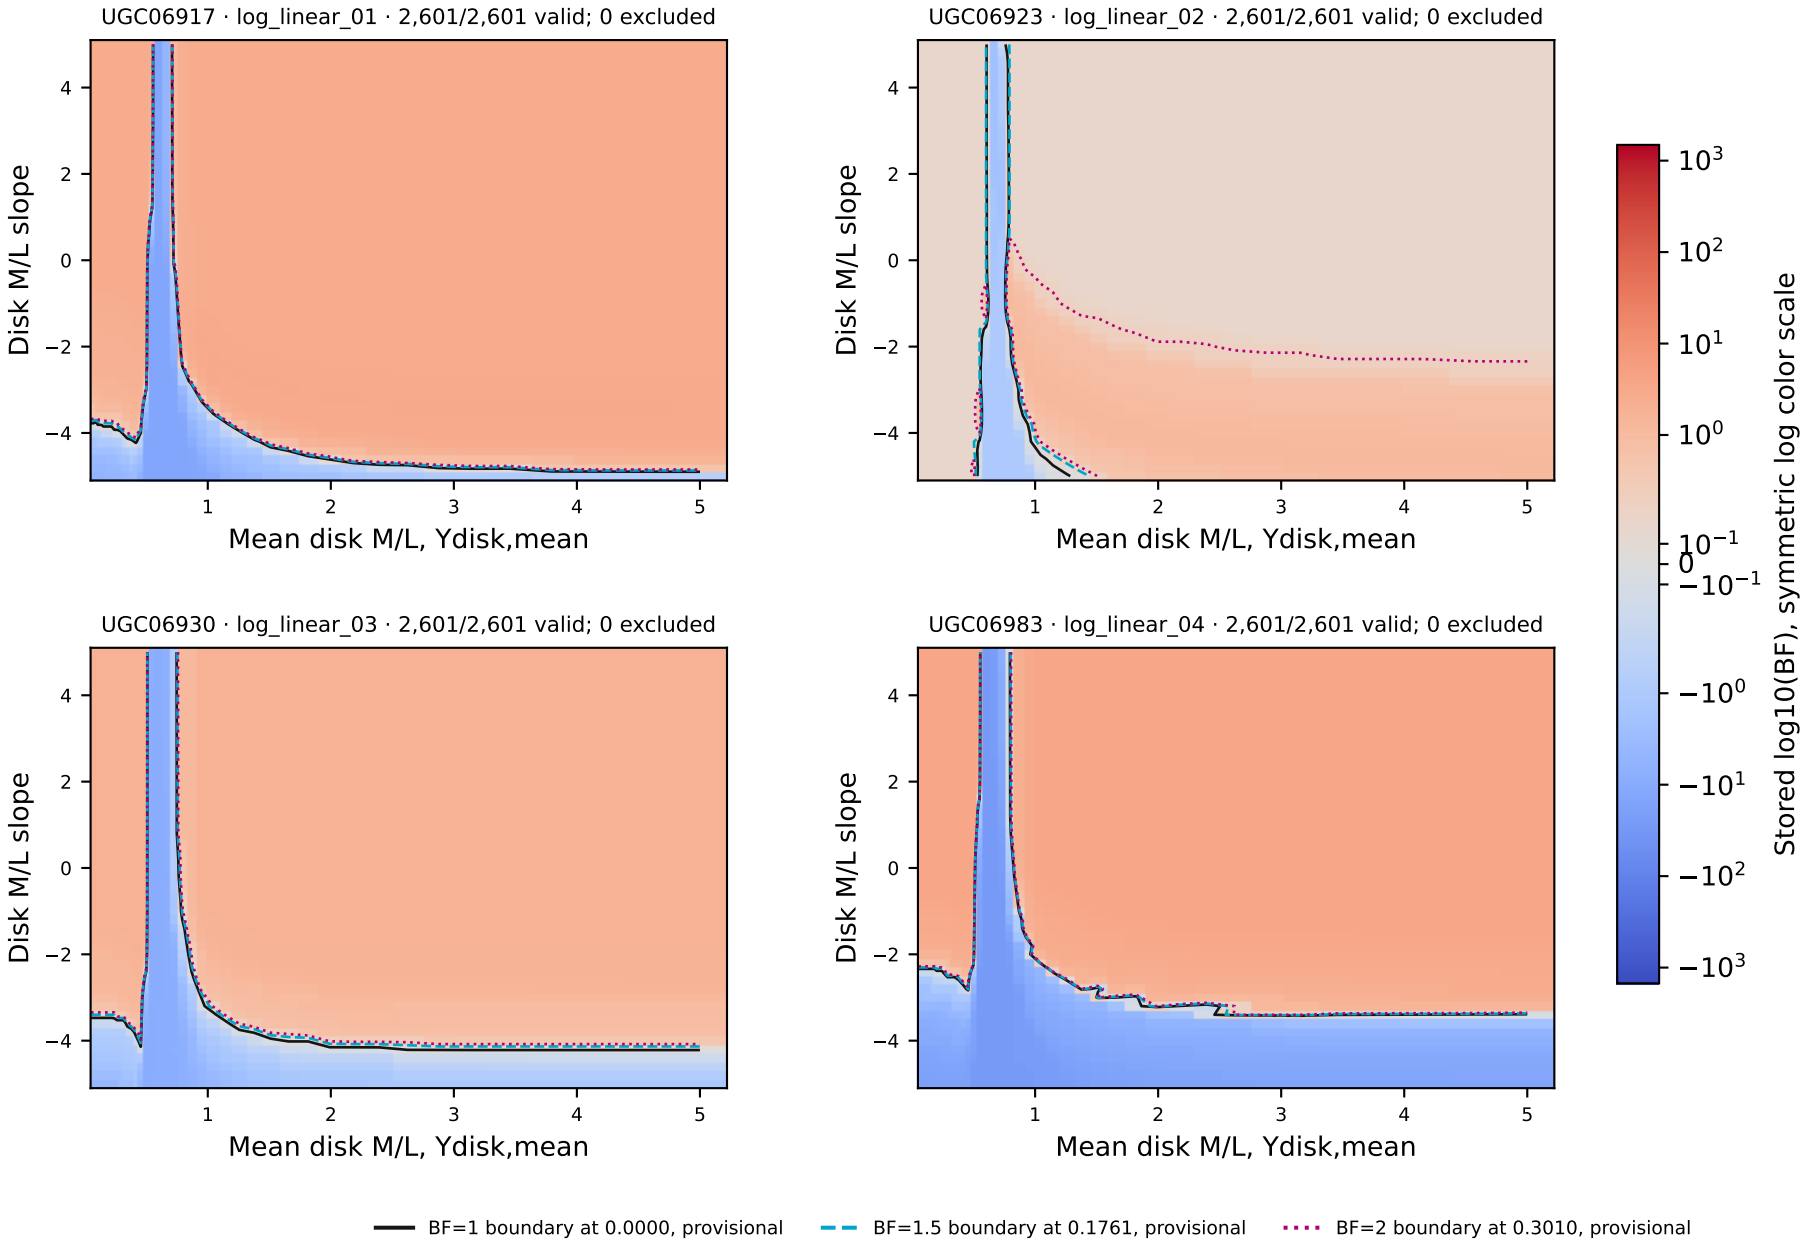

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

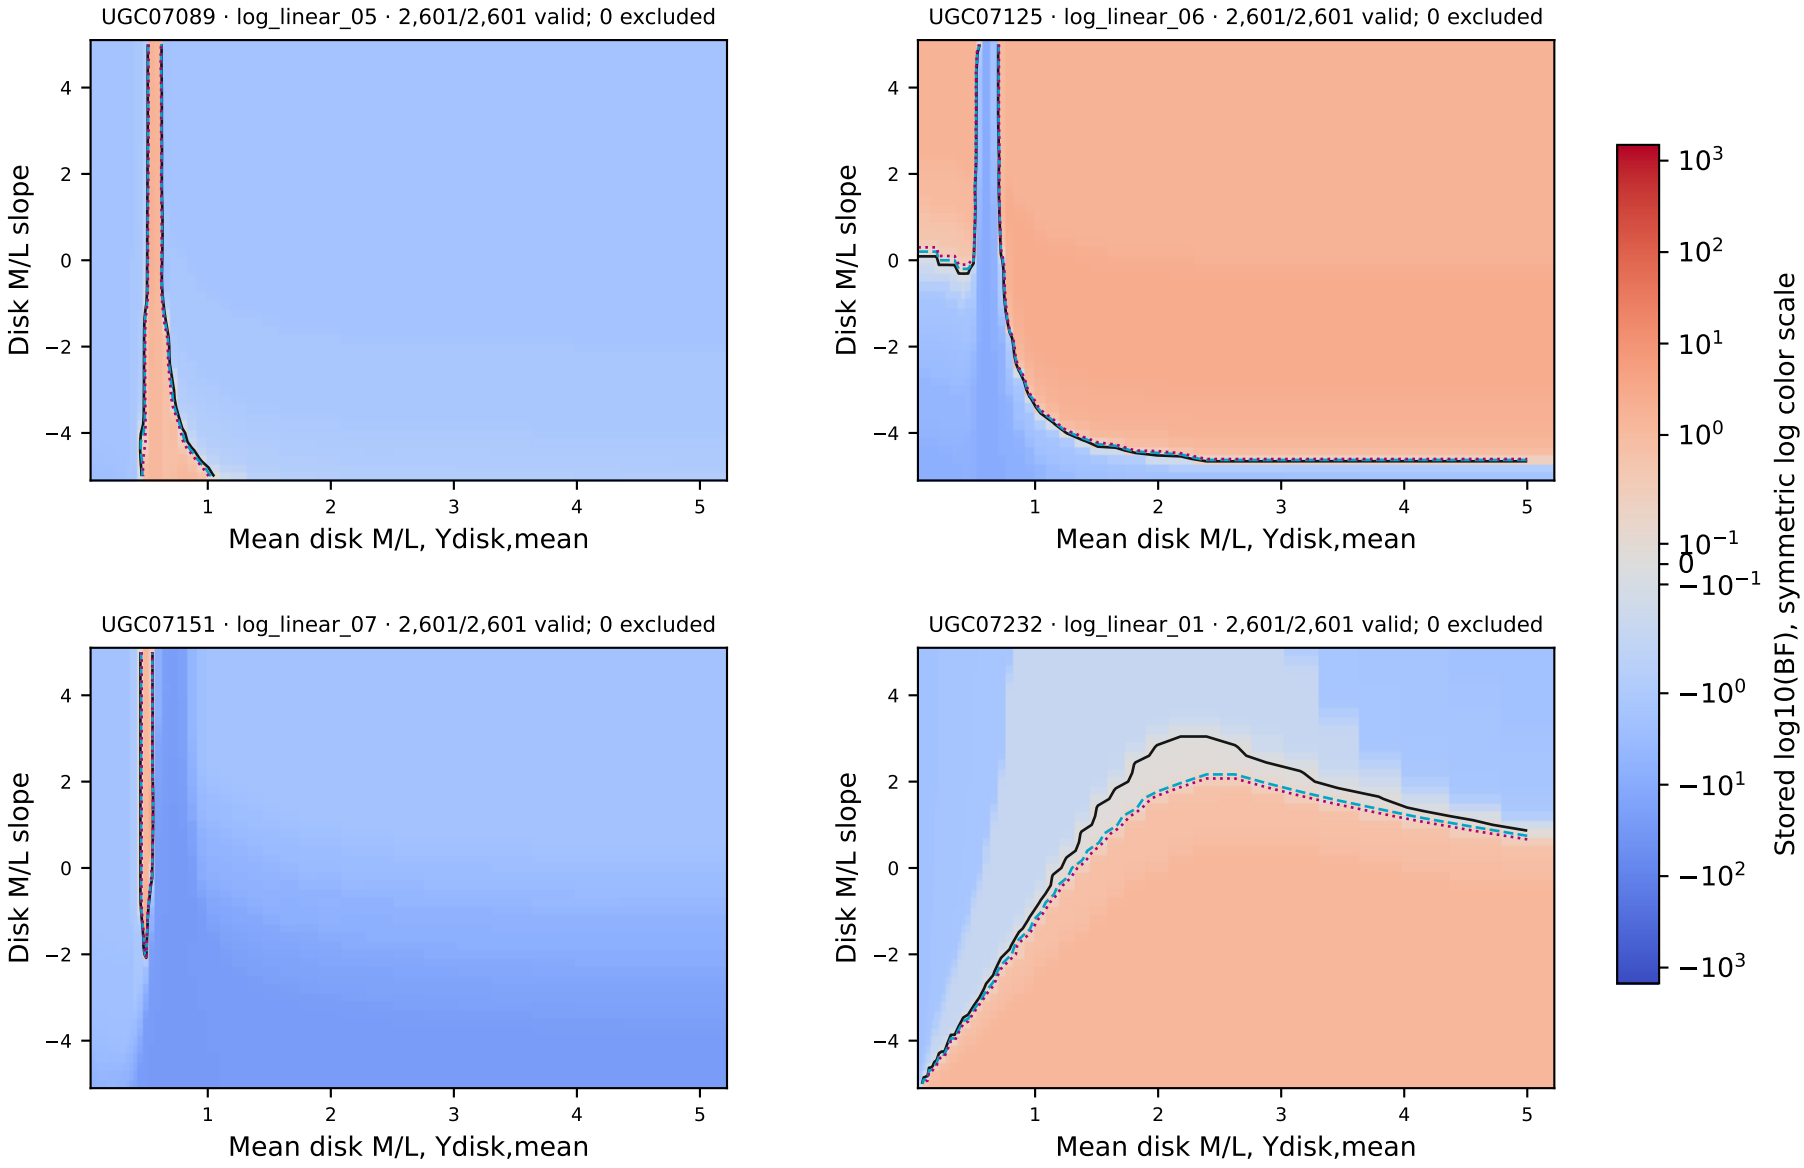

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.

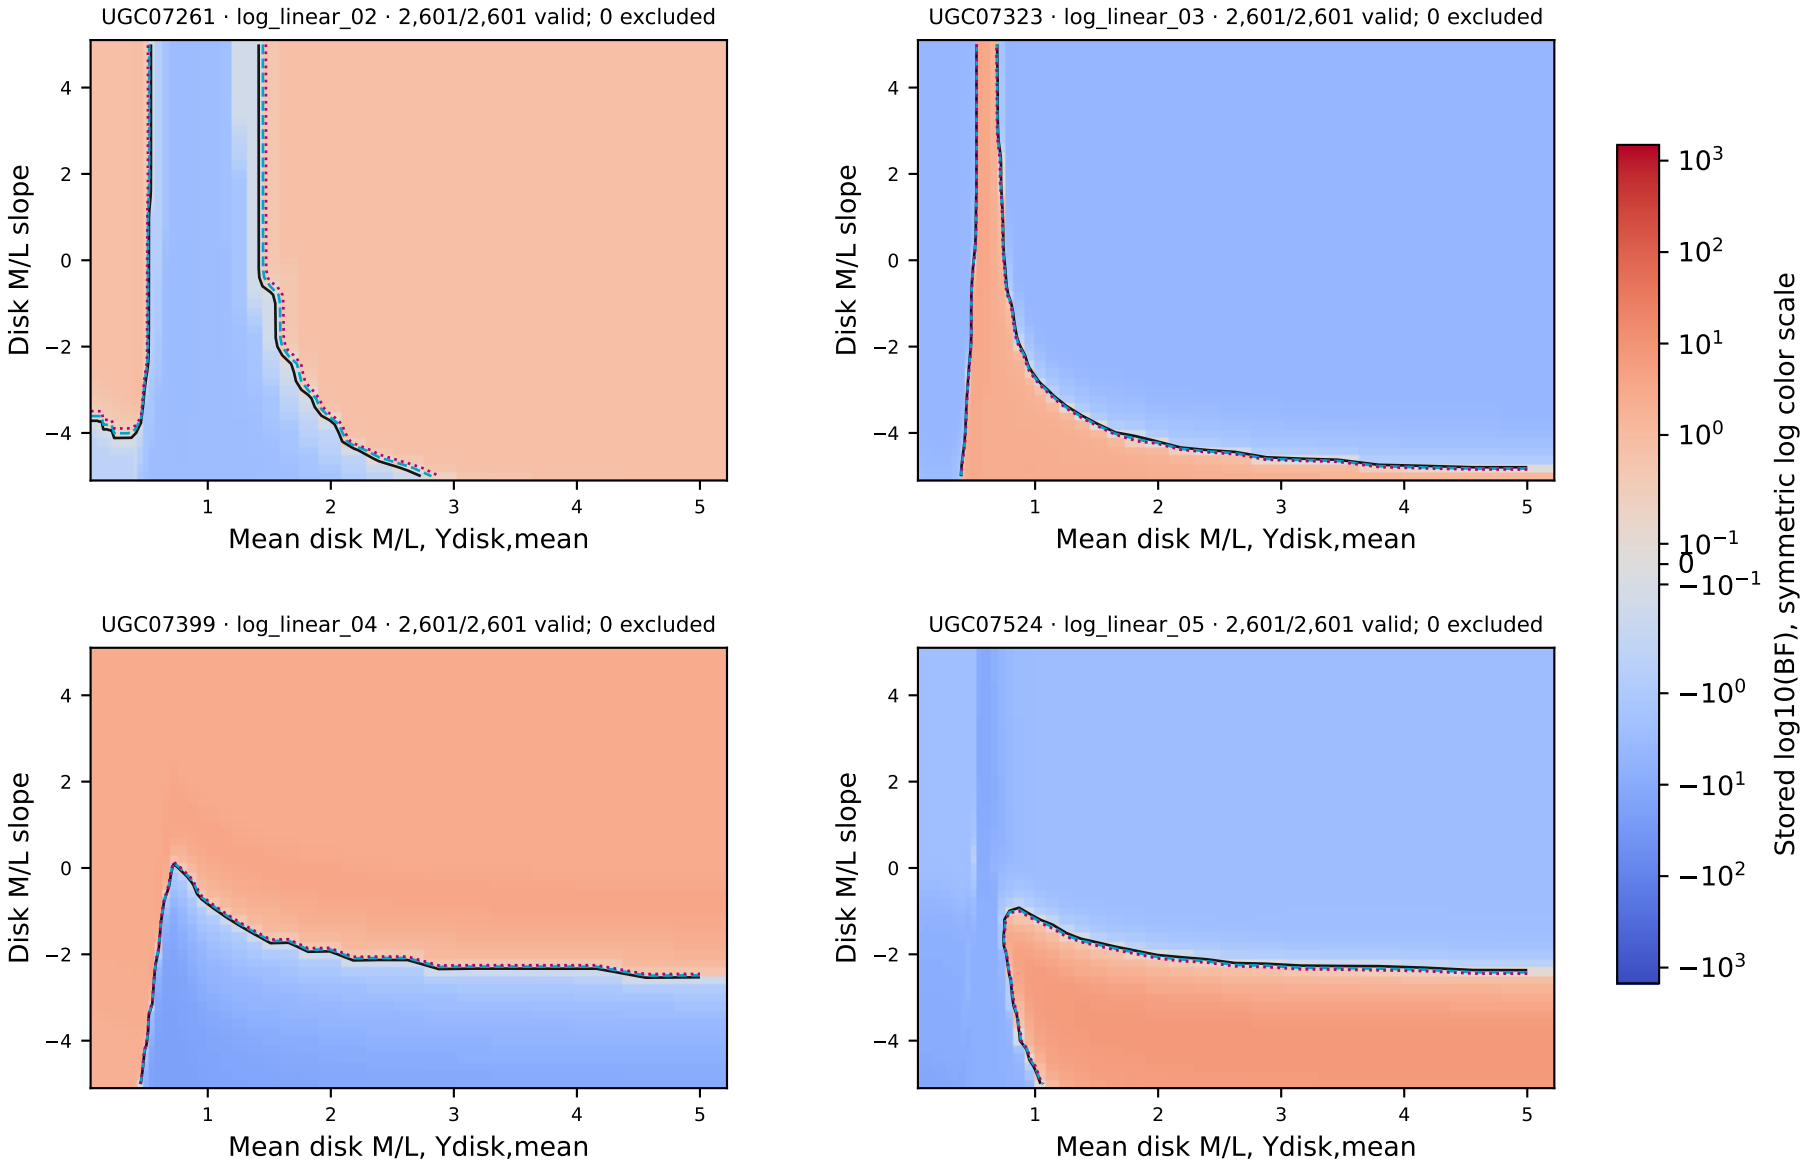

Stored log10(BF) only; no BF recomputation. Gray = excluded/missing cells. Not scientifically validated.
